CHILD FATALLY INJURED WHEN STRUCK BY CAR

A two-year-old child was fatally injured last Sunday as the result of an accident at Lawndale.

Mrs. H. H. Menne, of San Francisco, stepped from a street car with Edith James, aged 2, her granddaughter, in her arms. Mrs. Menne stepped from the car directly in the path of an approaching car. The woman and child were struck and thrown to the ground, the child being almost instantly killed.

Mrs. Menne sustained internal injuries and a broken collar bone as a result of the accident, and was taken to the South San Francisco hospital, where attendants feared to tell her of the death of the little girl.

Witnesses to the accident declared that Mrs. Menne's view was obscured by the manner in which she held the child, and it was undoubtedly due to this fact that the tragedy occurred, as she stepped directly in the path of the car, and there was not a chance of preventing the accident.

Funeral services for the little girl were held Tuesday afternoon from the mortuary chapel of W. C. Lasswell & Co. Interment in Greenlawn cemetery.

OFFICERS CHOSEN BY GRACE PRESBYTERIAN

The annual congregational dinner and business meeting of the Grace Presbyterian church, held last Friday evening, proved to be a most delightful affair, and a fine attendance was had. The luncheon of Virginia baked ham, with scalloped potatoes, sweet potatoes, cabbage and salad, with a finish of pie with whipped cream, was surely relished by all.

In the business meeting, moderated by Dr. Willis of the Ocean Avenue Presbyterian church, one new member united with the church.

The following were elected for the coming year as the official board of the church: Elders, Wm. McKeown, Tom Swan and James Butts; Deacons, Howard Roof and Ernest Swan; Treasurer, Mrs. R. G. Davis; Secretary, Mrs. Frank Alward; Trustees, George E. Archer, George Savage, R. G. Davis, Andrew McKeown, Joe Swan, George Riddell, and John Carnegie.

WOODROW WILSON PUPILS MAKE TRIP TO TAMALPAIS

Last Tuesday the Eighth graders of Woodrow Wilson made their Tamalpais excursion. About thirty-five constituted the party. They were accompanied by Mrs. Emily Lohr, Miss Doris Vannier and W. J. Savage. The weather was warm and pleasant, one of the most perfect days that has come this year.

The trip across the bay delighted everyone, and a little later the hard climb of the rugged mountain in the warm sunshine gave all a full understanding of the meaning of a test of endurance. All the perspiratory ducts opened their gates and worked at high pressure, and many a heart labored unusually hard. However, there was no occasion to worry, because anyone could and did rest anytime the need of it was felt, and one never knows the sweetness of rest until the exhausted feeling comes. This pleasure came to a few of the party, very frequently.

Before noon the hardier ones had reached the top, and after another hour the last of the stragglers had joined them. The lunching and the playing at the summit were fully as enjoyable as usual.

The long and pleasant descent began at 3 o'clock and was filled with shouts of joy over interesting sights and incidents. The perpetual shade of Muir Woods was heartily enjoyed, after the warm sunshine, and the dashing water of many pretty falls mingled its music with the voices of children.

It was 8 o'clock when Mill Valley was reached, and then the car and ferryboat completed the pleasure of the day that will not be forgotten.

BUILDING PERMITS ON THE INCREASE

City Clerk B. C. Ross reports the issuance of the following building permits:

B. Youngs, 28 Woodrow street, four rooms and garage; 32 Woodrow street, four rooms and garage.

E. Gigli, 331 San Diego avenue, small building.

Annie D. McCarthy, 215 Los Banos avenue, alterations.

M. Koskinen, 131 Hillcrest Drive, garage.

T. Bentley, 336 San Diego avenue, one room addition.

McGerry Robson, 51 Rice street, five rooms and garage; 99 Rice street, five rooms and garage.

H. Ekenberg, 352 San Diego avenue, garage.

MANY CONFIRMED AT LOCAL CHURCH

Sunday, March 20, will be remembered for many a year as a triumphant day in the annals of the St. Maximus Catholic church of this city. Already this church has taken part in numerous highly creditable ceremonies, but on last Sunday all its previous successes were eclipsed.

As the hour set for the high mass and solemn ceremonies, 11 o'clock, approached, people gathered in large numbers to witness the annual ceremony of the Archbishop Edward J. Hanna administering the sacrament of confirmation to a very large class of boys and girls. While the people sat waiting in the church they could not but marvel at the beauty of the setting. The paintings and the other artistic decorations never looked so rich and beautiful before.

Soon the long procession of boys, dressed in new suits with white ribbons upon their arms, and girls in white dresses and veils, filed into the church, presenting such a picture of pure devotion that every heart was moved in loving pride by the edifying sight.

When the children were seated, Archbishop Hanna appeared in magnificent robes of office, accompanied by several priests, making the spectacle of religion even more impressive. In addition to confirmation, the mission for adults, now in progress, was introduced very solemnly.

The Archbishop spoke, and in such well chosen thoughts that all felt that a great message for young and old was being delivered.

The celebrant of the mass was Rev. Charles Bertola, the first pastor of St. Maximus. Rev. James Moran, of South San Francisco, acted as deacon; Rev. Edward Maher as sub-deacon; Rev. Thomas Millett, master of ceremonies.

When the sacrament of confirmation was being administered, Thomas Moran, trustee of this city, stood sponsor for the boys, and Mrs. Angela Johnson for the girls.

One of the very pleasing features of the occasion was the wonderful singing of the large class. Led by one of the Mission fathers they sang joyously and with arousing enthusiasm. The whole program was carried out with becoming precision, showing training in every detail.

The patient and faithful Sisters who did the teaching are deserving of the highest praise for what they accomplished. Rev. James Donohoe, the pastor of St. Maximus, merited the many compliments he received. He was alert to see that every move was carried out without even a semblance of failure, and the complete success of the event made him the proudest and happiest of all those who were present.

Those confirmed, one hundred and fifty-two, were as follows:

Perina Mary Passafiume, Nora Mary Calloty, Florence Alvina De Wing, Fiorina Dolores Bartoli, Mary Theresa Markovich, Frances Annabel Poket, Veronica Geraldine Linhares, Dena Mary Raffo, Henrietta Helena Norry, Blanche Lucy Romiguiere, Lorraine Barbara Perasso, Hazel Dolores Milo, Jeanette Esther Douglas, Martha Mary Nelson, Mary Barbara Kennedy, Esther Elizabeth Vireno, Amelia Josephine Fontana, Florence Barbara Luccia, Pilar Ann Cenarrozabietia, Kathleen Thresa Waynne, Blanche Claire Pelisser, Ruth Jane Moran, Ullissine Thresa Bartoli, Thresa Mary Castanza, Frances Angeline Jacona, Carmen Marie Cenarrozabeitia, Mary Rose Navi, Verna Mary Conci, Virginia Barbara Corish, Yolanda Marie Francesconi, Gwendolyn Patricia McLaughlin, Susan Mary Margaret McKeown, Norma Dolores Ghiotto, Anastasia Patricia Regan, Evelyn Loretta Norry, Dorothy Frances Duffy, Katherine Mary Daugherty, Edna Mary Smith, Caroline Alberta Belli, Mary Veronica Carboni, Edith Agnes Lewis, Lucy Barbara Cenarrozabieti, Marie Carmel Welton, Sophie Marie Baldacci, Tillie Marian Gattie, Frances Ctherine Oberg, Louise Mary Terramase, Alice Agnes Burr, Pauline Dolores Aiello, Lorraine Veronica Gregorie, John Joseph Grisler, Joseph Paul Compagni, Raymond Peter Lippi, John Henry Deram, Hugh Charles Smith, Natalie James Johnson, Albert Robert Della Cruz, Frank Joseph Ramezzano, Otillio Joseph Ghiotti, Leo Peter Wille, Robert John Malespina, Joseph Andrew Scalia, Gatthon Edward Monteleon, William John Lewis, Edward Lawrence Pribula, Barthold Aloysius Stuehler, Albert Francis Perata, De Vane, Louis Pezzola, Ray Charles Sweeney, John Patrick Perry, Ernest Joseph Milo, Jerome Joseph Dhuyvetter, Walter Anthony Kohlmann, George Francis Godfrey, Stephen John Mack, Frank Raphael Bosky, Dominic Peter Compagni, Wilfred John Pezzola, Charles Joseph Nelson, Francis Joseph Bogart, Leonard John Muller, Herman Joseph Segali, James Henry Kennedy, Marcel John Wille, Frank Joseph Gigli, Frank Joseph Davidson, Ray Maximus Kelly, Lawrence Joseph Brittos, Celeste Joseph Tocalino, Stephen Joseph Passafiume, Leota Jean Wagner, John Peter Ambrosio, Walter Bernard Ulrick, John Joseph Muller, Joseph Anthony Perry, John Joseph Kentra, Richard Aloysius Pescaro, Arthur Edward Della Cruz, Ralph Rudolph Martini, Arthur Robert Crocker, Carlos Frederick Reinhardt, Joseph Lawrence Moran, William Aaron Brush, Richard Allan Perata, Joseph John Johnson, Andrew Bernard Vireno, Fred Edmund Knoll, Henrietta Agnes McKeown, Virginia Dolores Mackey, Edith Barbara Boskey, Viola Mary Rehaume, Miriam Patricia Blum, Margaret Dorothy Farley, Flora Louise Raggio, Elizabeth Anne Aiello, Alice Barbara Lucia, Bonnie Jean Margaret Kremer, Carmen Victoria Bautista, Irene Barbara Smith, Jane Mary Della Cruz, Florence Barbara Rancatore, Agnes Elizabeth Musante, Loretta Agnes Duffy, Juanita Elizabeth Puccini, Maxine Mary Smith, Vera Yvonne Buriani, Lena Margaret Salvino, Nellie Frances Gabriellini, Helen Bernardine Reinhart, Rita Irene Corish, May Winifred Lasswell, Mary Ann Nardi, Angeline Irene Scalia, Mary Irene Moran, Helen Margaret Lewis, Gladys Clare Hayes, Salvadore Joseph Guerro, Joseph Lawrence Johnson, John Joseph Dougherty, Raphael Joseph Compagni, William Eugene Straight, John Joseph Sambralio, Nicholas Vincent Cambrallo, Ralph Eugene Johnson, Rudolph Patrick Christian, Victor Dominic Gatti, Frank John Giomi, Glenvin Joseph Meadows, Joseph Robert Hanley, Ray Augustine Johnson.

NOTED SPEAKERS ON THE PROGRAM FOR SCHOOL WEEK

The state headquarters in San Francisco for public schools week, April 5th to April 30th, has announced a partial list of speakers of prominence who will participate in the different meetings during the week.

Among the names announced were those of William John Cooper, state superintendent of schools, who will deliver five addresses; Tully Knoles, president of the College of the Pacific; Bishop William H. Moreland, of Sacramento; Dr. J. V. Breitweiser, of the University of California; and Stanley Wilson, of Los Angeles, former member of the state board of education.

Superintendent Cooper will speak in San Francisco on Monday evening, April 25; Tuesday evening at Fresno; Wednesday at Hemet; Thursday at Ontario, and Friday evening at San Diego.

Superintendent Cooper has sent instructions to all county, city and district superintendents of schools, and all high school principals, announcing that the state law permits such meetings as will be held during public schools weeks, to be held in school auditoriums, and requesting co-operation in the week's activities from school officials.

Reports received at headquarters in San Francisco of the state committee indicate an unusual degree of interest in the observance this year, which will be the eighth annual observance of public schools week. Although originally instituted by the Masonic fraternity, the ceremonies have attracted such wide attention wherever held that they are now of a public nature, with the public generally invited.

DE MOLAY MEMBERS LISTEN TO SERMON

The meeting of the DeMolay Chapter of Daly City with the Grace Presbyterian church last Sunday morning was one of the finest services at that church for some time. Twenty-four members of the Chapter, a splendid group of young men, attended the services. The duet by Mrs. Roof and Mrs. Bails, and the two solos by Gifford Teel, and the reading by Miss Katherine McKeown were appreciated by the congregation. The house was well filled, and the pastor, Rev. Chas. H. Gatchell, wishes the young men to know that their coming to this service is appreciated, and that the door is always open and a hearty welcome extended.

SIX NEW FIRE ALARM BOXES

The fire commissioners held a special meeting Monday night in the City Hall. All the company captains, marshals and lieutenants were in attendance. Chief Kennedy gave quite a lengthy talk on their duties and what he expected of them. The commissioners voted on six new alarm boxes. They will be located at Acton and Winchester, Brunswick and Evergreen, Shakespeare between San Jose and Ryan, Guadalupe and San Diego, Knowles and San Diego, Citrus and Willits. Installation will begin in two weeks and be completed within six weeks.

SCALES OF EARLY DAYS MADE FROM SARDINE BOXES

"It is interesting to note that one of the first acts written into the statutes of the state of California was an act to regulate weights and measures and to establish county sealers," says Edward J. Ford, county sealer of weights and measures for San Mateo county.

In the early days of the gold rush, all kinds of weights were in vogue. One quite common practice was to use two empty sardine boxes, balanced with a dollar as an ounce weight. At Downeyville, where the miners used to average thirteen or fourteen ounces a day per man, an eight ounce measure was made out of molten lead. Downey and his party evidently forgot that gold is measured by troy rather than avoirdupois weight, and that this eight ounce lead weight, being on the avoirdupois basis, meant that each one-half pound was two ounces in excess of the regular gold standard.

Many other interesting methods of weighing gold occurred during these early pioneer days. For example, one camp is called Tin Cup Gulch, because at the end of each day the miners would gather around the table and divide the gold with a tin cup measure.

"Pinch-Me-Tight" is still the name of a mining camp near old Hangtown in El Dorado county. It received its name because the storekeeper used to take a pinch of gold in payment for supplies, and he had big fingers. In fact, pinches were a common standard. One authority on this subject says that one pinch was equal to $1, one teaspoonful equaled one ounce, one wine glass $100, and a tumbler $1,000.

When the weights and measures law was signed in March, 1850, one standard of measure was established in the state of California, and the Hon. J. Winchester of San Jose, as state printer, was authorized to broadcast this information to all communities.

When one enters a modern shop and sees the perfect scales and notes the accuracy with which packages of butter, cheese or manufactured commodities are put up, he does not realize the evolution which has taken place in commercial life in bringing these standards of reliability to pass. It is difficult sometimes for anyone to realize how deeply into our lives the system penetrates. In fact, one peach grower remarked recently that he did not know what the fruit men would do without the weights and measures laws to protect them. You will find that every package of fruit has an established weight. So has every pound of butter and every sack of coal. The standard is set by the Division of Weights and Measures of the state of California. Every loaf of bread weighs either sixteen or twenty-four ounces, or multiples thereof, and must weigh this up to eighteen hours after baking. In this way the housewife is assured that whenever she purchases bread in California she will receive full weight for her money. Every sack of flour, every sack of potatoes, in fact every commodity purchased at a grocery store today is under the observation of the sealers of the state department, and if at any time the net contents does not conform to the bill of sale or the specified statement on the outside of the package, the Division of Weights and Measures wants to know about it.

The weights and measures laws are so broad and cover such a variety of subjects that they affect every branch of industry in every transaction, whether monetary or material, and aid in building up the standarization of values and honest practices in the trade of the state and the nation. They protect the honest dealer from unfair competition by making it impossible to cut down the size or the quantity in a package. They have removed from commerce inaccurate scales and false bottomed containers, have standardized the silk in a spool of thread or in a yard of cloth, the weight of trucks and railroad cars, the number of sardines in a can, and how much silver is to be put into a dollar. They insure to the ultimate consumer, to you and to me, that we will get exactly what we pay for, as far as quantity is concerned. In fact, the weights and measures laws are a part of the government itself; they stand for honesty in business, and we could not get along without them.

SEEKS DAMAGES AS RESULT OF AUTOMOBILE ACCIDENT

Joseph Gonella, of Daly City, filed suit for $15,000 damages last Tuesday in the Superior Court at Redwood City against George Raven. Gonella alleges that he was run down by an antomobile driven by Raven, January 31, 1927, at Daly City. He alleges he received a fractured skull and internal injuries.

OFFICERS CHOSEN BY LOCAL LIONS

Election of permanent officers featured the regular meeting of the Daly City Lions last Monday evening.

The officers selected by unanimous vote of the members of the club were: Neil O. Best, president; Claude B. Rich, vice-president; F. Jay Sommerkamp, secretary-treasurer; F. P. Callsen, Dave Campbell, William H. Clay and William J. Sweeney, directors.

With the election of a permanent roster of officers, the local Lions Club promises to get down to real constructive work.

A distinguished group of San Francisco Lions attended as guests and gave interesting talks on worth while Lion accomplishments and included true to life stories from the firing line of Lionism. President Willard Evans headed the San Francisco contingent, and with him came Tom Nelson, secretary of the San Fransisco club, William Bickett, director of the Columbia Park boys' band, Hugo Callahan, one time member and now a director of the Columbia Park boys' club, William Unmack, another strong boys' club booster and San Francisco advertising expert, and Clarence Sprague, song leader of repute, who showed the local Lions how to put real harmony into group singing.

VETERAN SUPERVISOR SUCCUMBS TO ILLNESS

Never fully recovering from the shock of his wife's death a year ago, John MacBain, chairman of the San Mateo county board of supervisors, died Wednesday at his home in Menlo Park, at the age of 78. He had been seriously ill for the past week, and sank rapidly.

John MacBain was one of the most forcible characters in the county. Although always a strong leader of the Republican party, he had many warm friends among the Democrats. He has been a member of the board at intervals since 1900. In 1888 he was elected roadmaster, the only time in the state's history a roadmaster was elected. He had resided in Menlo Park since 1878.

John MacBain was born in Pictou county, Nova Scotia, on October 3, 1849. His parents were farmers, but young MacBain decided to learn the carpenter trade and worked at it in many eastern cities until he decided to come to California in 1874. In 1880 he started in business for himself as a building contractor and met with great success.

Always an advocate of good roads, Mr. MacBain was a leading spirit in the movement which resulted in the fine system of roads now enjoyed by San Mateo county, and played a very prominent part in bringing about the construction of the Skyline boulevard and the Bay Shore highway by the state. He was one of the most ardent advocates of the Dumbarton bridge, nad one of the most important factors in bringing about its successful culmination.

Funeral services will be held tomorrow (Saturday) at 2 o'clock under the auspices of Redwood City Lodge No. 168, F. & A. M., in the Redwood City Masonic Temple. Interment will be in Cypress Lawn cemetery.

A successor will necessarily be appointed by Governor C. C. Young to fill the position on the board of supervisors until its expiration on January 1, 1929. Already various candidates are being mentioned, as the remaining term of two years is fairly long for an appointive position.

YOUNG MAN BREAKS ARM WHILE CRANKING MACHINE

Ralph Brown, son of Mr. and Mrs. J. L. Brown, formerly well known residents of this city, now of Ross, met with an accident, about a fortnight ago, by which he suffered a fracture of his right arm. The accident occurred while he was cranking his machine. He has borne his trouble like a young stoic, and hardly missed a day from school on account of it. He is now an Eighth grader and very ambitious to graduate with a respectable record. His principal says that quite often blessings come in disguise, and that, perhaps, one result of this injury will be greater application to scholastic work. Ralph is making his left hand perform the duties of the two hands at present, and his success is encouraging. Continuously new evidence is presented proving the old saying, "Necessity is the mother of invention."

Jailed for Disturbing Peace

Charles Thompson, of 27 St. Louis avenue, San Francisco, under suspended sentence for illegal driving in Daly City, was arrested recently on a charge of disturbing the peace in this city, and when brought before Judge Ellis C. Johnson was sentenced to ten days in the county jail at Redwood City.

DISCUSS COUNTY DEVELOPMENT AT CHAMBER MEET

Representative citizens from every section of San Mateo county attended a meeting of the San Mateo County Chamber of Commerce in Redwood City last Saturday, in response to an invitation from that body.

The meeting was presided over by Fred H. Drake, president of the San Mateo County Chamber of Commerce, who declared that the newly organized county body was an absolutely non-political organization which would devote its entire energy to the development of San Mateo county. He told of the many advantages which the county possessed and urged every citizen to develop the boosting spirit and a determination to accomplish the best possible things for the advancement of the county.

Mr. Drake stressed the fact that there are too many vacant acres in San Mateo county, and that homes and industries should be placed upon them with as little delay as possible. He advocated advertising as the best means of bringing this result about, and stated that this would be the primary concern of the new organization. He declared most emphatically that the county organization was not in competition with the local chambers of commerce, but would strive to cooperate with them in every way. He complimented the representatives on the fine gathering and stated that he believed it marked the beginning of a new era in the progress and development of San Mateo county. He outlined the plan of procedure of the directors of the county chamber, and announced the appointment of committeemen to work on the various divisions of the county organization, the committeemen appointed being representative citizens of the county.

Various speakers were called on to express their ideas relative to the plan outlined, among them being L. E. McLellan, of Beresford, John D. Bromfield and Charles G. Lambere, who expressed their belief in the great future for San Mateo county, and appealed for co-operative effort to put over the plans of the chamber.

Trustee A. J. Bodien, of Daly City, pledged the unqualified support of this community to the county chamber and stated that he was certain that his fellow trustees would do all in their power to aid in the progress and development of the county.

Emmett Donnelly told of the opportunities for industrial progress which the county offers, while Dr. C. V. Thompson, supervisor of the Fifth township, declared that he was heart and soul with the plans of the chamber and would withdraw his opposition to the special tax for the chamber's work and co-operate in every way to make it a success.

Supervisors Thomas L. Hickey, Rosalie Brown and Manuel Francis also pledged their full support to the work outlined for the county organization.

E. Schillingsburg and P. F. Hanson of the Southern Pacific Company pledged their support and that of the railroad company to the chamber, and promised to aid in every possible way to make the chamber a success.

L. D. Fleming of the San Francisco Chamber of Commerce spoke of the necessity of developing industry to keep pace with the increased population and warned of the danger of bringing new people to a community without providing means for them to earn a livelihood.

F. D. Cornell told of the far sighted plans being made by the developers of Port San Francisco and the wonderful opportunity which it would offer for industrial development.

Horace W. Amphlett, publisher of the San Mateo Daily Times, Sam D. Merk, publisher of the Burlingame Star-Advance, Frank W. Thrall of Broadway, William J. Claus of Beresford, John P. Daly of Burlingame, Ira H. Potter, director of the county chamber, Eric Alsford of San Gregorio, Commander J. E. Pond of Burlingame, Harry Regan of the Peninsula Rapid Transit Company and other speakers pledged their co-operation and predicted great success for the new organization.

WOULD LIMIT LOADS ON UNPAVED ROADS

The San Mateo county board of supervisors at its session in Redwood City last Monday, recommended the drawing of an ordinance to regulate loads of automobile trucks on unpaved roads in various portions of the county, on recommendation of Supervisor Hickey. The district attorney will prepare an ordinance to limit truck-loads to six and nine tons for various types of vehicles on the unpaved roads, it was announced.

Special consideration will be given to insurance carried by the county at the next meeting of the board, April 4, it was decided.

AUTO TAG DRIVE BEGAN MONDAY

Blue and white 1926 license automobile license plates are taboo.

Last Monday morning traffic officers in all counties of California, acting under orders of C. K. Harder, chief inspector of the division of motor vehicles, began stopping all motor vehicles carrying the blue and white plates.

Motorists who have not made application for 1927 buff and maroon plates will be arrested and their vehicles impounded.

Those who have made application but for any reason have not received their new plates, will be allowed to proceed, but they will be required to produce evidence satisfactory to the officer that they have filed an application.

The division estimates that there are some 40,000 or 50,000 motorists in the state who have not made application for new plates. Owners of approximately 1,300,000 vehicles have complied with the law.

Mr. Harder said: "All plates, except for a few held up because of uncompleted clearances, defective bills of sale and other legal reasons, have been cleared from the division offices. There is no longer any legitimate excuse for any motorist who has failed to apply for his plates.

"For this reason, officers have been instructed to stop all cars with old plates, and the motorist who can not show good cause why he has not secured good ones, will be held."

CANADA GIVES NINETY-DAY PERMIT TO AUTO VISITORS

"Vacationing under two flags" in the Puget Sound and British Columbia region does not entail delays and worries at the international boundary, thousands of Californians determined last year when they came to this section for their vacation, says a Seattle resident.

Crossing the boundary line from the United States into Canada is as simple a proposition as going from San Diego to Tijuana. Canada welcomes tourists and the British Columbia slogan of "No Red Tape at the International Border," is made good. There are no irksome regulations to bother you.

If motoring, you merely register your car, giving the make, engine number, etc., and assurances that it is not to be used for commercial purposes. There is no bond, no license, no fees, no duty, and the entry permit entitles the visitor to remain ninety days without getting a renewal.

CONNECTICUT REMOVES RECKLESS FROM ROADS

Dangerous drivers are continually being removed from the highways of Connecticut. Last year 8,821 operators were taken off the roads for varying periods because of infractions of the law. This was an increase of nearly 400 over the suspension of licenses for 1925. Connecticut is making a determined effort to reduce motor vehicle accidents, one phase of which is to eliminate the dangerous driver.

YELLOWSTONE PARK OPENS THIS YEAR ON JUNE 19

Formal opening of Yellowstone Park for the 1927 season has been set by the Interior Department for June 19. Campers will be admitted as soon as the winter snows are cleared, which will be about June 16, the department states. The opening ceremonies will include the dedication of Cody Pioneer Museum, a log cabin duplicate of "Buffalo Bill's" ranch home.

"LOCK CAR" CAMPAIGN TO FOIL THIEF OPENS

A "Lock Your Car" campaign is being carried on by the Automobile Merchants' Association of New York throughout the United States, so that the motor thief may be defeated at his own game. The association is preparing a standard poster reading: "Important, lock your car when leaving it unattended."

FATALITIES ON THE INCREASE

Automobile fatalities in California showed a considerable increase during the four week period ending February 27, 1927, according to statistics made public by the Department of Commerce. In that period figures reported to the department show that forty-six persons lost their lives in the three cities of San Francisco, Oakland and Los Angeles. This compares with the same period of last year when the number of fatalities was only thirty.

Road Damage Cost Half Million

Damage to state highways during the February storms is estimated at $500,000. A program of repair work was immediately started by the State Highway Commission. Main damage was in Southern California, where several new bridge projects were necessitated. It was necessary to relocate sections of the roadway in several places.

Priest Grade Work Completed

It is expected that the work that has been under way on Priest's Grade an the Big Oak Flat road into the Yosemite valley will be completed during the week.

TWO UNDER ARREST IN TRAFFIC TANGLE

Mrs. Constance Nelson, of San Francisco, was locked up in the county jail at Redwood City last Sunday, and Elmer Barry, her brother, was incarcerated in the Burlingame city prison, as the result of an automobile jaunt down the peninsula. The charge against Mrs. Nelson is disturbing the peace, and that against Barry is reckless driving.

Traffic Policeman Earl Christensen ordered Barry to halt as he was speeding through Burlingame. In doing so he is said to have put his car into reverse and collided with a car driven by Mrs. Jessie Jacobsen, of San Francisco, who was slightly cut by broken glass.

Mrs. Nelson is said to have objected so strenuously to the arrest of her brother that she was also taken into custody.

STILL PASS ON LEFT SIDE IN FORTY-FIVE COUNTRIES

In forty-five countries of the world the rule of the road is to drive to the left instead of to the right. Among the important nations where left-hand rules are enforced are: The United Kingdom, Ireland and Austria in Europe, and Argentina and Uruguay, in South America.

That the automobile still continues to be the favorite form of indoor sport for our solons is indicated by the fact that approximately 5,000 bills legislating for and regulating the automobile will be introduced in the forty-four state legislatures.

NOTICE OF SALE OF REAL PROPERTY

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of Josie Cheatham, Deceased.

Notice is hereby given that, in accordance with law, the undersigned administrator of the estate of Josie Cheatham, deceased, will, on or after the 29th day of March, 1927, offer for sale and sell at private sale, as a whole or in subdivisions, as said administrator shall judge most beneficial to the estate of said deceased, to the highest and best bidder or bidders for cash in lawful money of the United States, and subject to confirmation by said Superior Court, all of the right, title, interest and estate which said Josie Cheatham owned or had acquired during her lifetime, and all of the right, title, interest and estate that the estate of said deceased has by operation of law or otherwise acquired, other than or in addition to that of said deceased at the time of her death, of, in and to all of the following described real property, to-wit:

All that certain piece or parcel of land situate in the County of San Mateo, State of California, and described as follows:

Lot number five (5) in Block number thirteen (13) as shown upon that certain map entitled "Map No. 1 Vista Grande, San Mateo Co., Calif." filed in the offce of the County Recorder of San Mateo County, November 5, 1906, in Book "C" of Original Maps at page 35 and copied into Book 4 of Maps at page 41, to which said map and the record thereof reference is hereby made and the same made a part hereof.

MANNER, TERMS AND CONDITIONS OF SALE.

Bids or offers will be received for said real property as a whole or for any subdivision thereof, each bid or offer therefor to particularly describe the subdivision or portion bid for; bids or offers may be made at any time after the first publication of this notice and before the making of the sale; all bids and offers must be in writing, and may be delivered to the administrator or left for him at the law offices of Messrs. Ross & Ross, First National Bank Building, Redwood City, California, or may be filed in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, at Redwood City, California. The right is reserved to reject the whole or any part of any bid, to accept it as to any part or subdivision bid for. Sales will be made for cash in lawful money of the United States, ten per cent (10%) of the amount of any bid to be paid to the administrator on notice of acceptance of bid, and the balance of the said sum to be paid to him upon the confirmation of sale by said Superior Court, and delivery or tender of deed; the instrument of purchase to be at the expense of the purchaser.

GAIN IN EMPLOYMENT IN STATE REPORTED

The latest issue of the California Labor Market Bulletin, released by Walter G. Mathewson, Commissioner of the Bureau of Labor Statistics, shows an increase of 2.8 per cent in the volume of employment in February, 1927, compared with February, 1926. This bulletin is based upon reports received from 809 representative industrial establishments located throughout the state. Last year, in February, these establishments employed 141,815 workers, with a total weekly payroll of $4,112,098; while in February, 1927, these identical establishments employed 145,832 workers, with a total weekly payroll of $4,265,944. These figures represent an increase of 2.8 per cent in the number of employes and an increase of 3.7 per cent in the total weekly payroll.

The average earnings in February, 1927, were $29.25, as compared with $29 in February, 1926, an increase of about 1 per sent. The following industries show higher weekly earnings: Chemicals, oils and paints, $36.29; printing and paper goods, 33.50; metals, machinery and conveyances, $30.81; and water, light and power, $30.72.

Motor Vehicle Freight

Freight carloads of automotive goods last year, according to the California Automobile Association, totaled 3,160,000.

It is reported that a Vermont mountain range is to named for the President's Spokesman.

NOTICE OF SALE OF REAL PROPERTY

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of William H. Cheatham, Deceased.

Notice is hereby given that, in accordance with law, the undersigned administrator of the estate of William H. Cheatham, deceased, will, on or after the 29th day of March, 1927, offer for sale and sell at private sale, as a whole or in subdivisions, as said administrator shall judge most beneficial to the estate of said deceased, to the highest and best bidder or bidders for cash in lawful money of the United States, and subject to confirmation by said Superior Court, all of the right, title, interest and estate which said William H. Cheatham owned or had acquired during his lifetime, and all of the right, title, interest and estate that the estate of said deceased has by operation of law or otherwise acquired, other than or in addition to that of said deceased at the time of his death, of, in and to all of the following described real property, to-wit:

All those certain pieces or parcels of land situate in the County of San Mateo, State of California, and described as follows:

Lots numbers three (3) and four (4) in Block number thirteen (13) as shown upon that certain map entitled "Map No. 1 Vista Grande, San Mateo Co., Calif." filed in the office of the County Recorder of San Mateo County, November 5, 1906, in Book "C" of Original Maps at page 35 and copied into Book 4 of Maps at page 41, to which said map and the record thereof reference is hereby made and the same made a part hereof.

MANNER, TERMS AND CONDITIONS OF SALE.

Bids or offers will be received for said real property as a whole or for any subdivision thereof, each bid or offer therefor to particularly describe the subdivision or portion bid for; bids or offers may be made at any time after the first publication of this notice and before the making of the sale; all bids and offers must be in writing, and may be delivered to the administrator or left for him at the law offices of Messrs. Ross & Ross, First National Bank Building, Redwood City, California, or may be filed in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, at Redwood City, California. The right is reserved to reject the whole or any part of any bid, to accept it as to any part or subdivision bid for. Sales will be made for cash in lawful money of the United States, ten per cent (10%) of the amount of any bid to be paid to the administrator on notice of acceptance of bid, and the balance of the said sum to be paid to him upon the confirmation of sale by said Superior Court, and delivery or tender of deed; the instrument of purchase to be at the expense of the purchaser.

Two Principles

ALEXANDER GRAHAM BELL discovered an electrical principle upon which a great communications art has been founded.

Those who undertook to give practical value to his discovery likewise left to their successors a principle of service, that has been developed into an intercommunicating system of over 17,000,000 telephones.

Both of these principles were built upon and developed with the same objective,—that of enabling men to talk one to another easily, conveniently, cheaply. With nation-wide telephone service already an accomplished fact, these principles still continue to act and react upon each other, producing new ideals of service, new goals toward which to strive.

MONUMENT BUILT AS WARNING TO OWNERS

The photograph shows an employee of a gasoline station at Schenectady, N. Y., before the grave of a motor "killed" through the use of poor motor oil. It is claimed that this monument did more than anything else to stimulate the buying of a better quality gasoline and oil, besides attracting an unusual amount of attention.

ELIMINATION OF RAUCOUS NOISES

Horn Is Vital Bit of Equipment, but Should Be Used Intelligently.

An appeal to motorists generally to aid in the elimination of senseless noises and to take the raucous notes out of those that seem relatively useful, has been made by Charles M. Hayes, president of the Chicago Motor club. While the automobile has brought innumerable blessings, Mr. Hayes points out, it also has brought innumerable noises that should be eliminated.

Vital Bit of Equipment.

"Every motorist is compelled to use the horn on his car. It is a vital bit of equipment," says Mr. Hayes. "However, there is an intelligent standard in this aspect of driving that every motorist can try to reach.

"A movement has been launched by the American Automobile association, with which this club is affiliated, toward the elimination of useless noises by automobile owners and the arguments advanced are soundly based on facts. Certain classes of motorists, entirely through thoughtlessness, of course, never find themselves in any sort of traffic predicament that their first thought is not for the horn button.

"When approaching a street intersection, regardless of the fact that the pedestrian has the right of way, they resort to the horn in a seeming attempt to blast the walker out of his legal rights.

Use of Horn Imperative.

"There are dozens of times when use of the horn is absolutely imperative. When passing another vehicle, one is legally compelled to give a warning. A warning is enough. Still, thousands of motorists are not satisfied with a mere warning.

"Rounding curves, usually calls for the use of the horn. Here is another case when there is a reasonable limit to the use of it. A signal is a signal only so long as it does not become acutely annoying to the person whose attention one is trying to attract. After that, too often, it becomes a distinct challenge. One of the most annoying of noises is that created by the motorist who wants to attract the attention of some one inside a building. Use the horn, but use it intelligently."

Excessive Use of Choke Makes Trouble in Motor

That the rush of cool air into the engine, which necessitates overuse of the "choke," is the cause of 50 to 75 per cent of all motor troubles, is shown by tests made by engineers. "Excess use of the 'choke' floods gasoline into the cylinders and washes away the film of protection and caused metal to rub against metal," they assert. "Excessive crankcase dilution, corrosion and rapid cylinder wear result.

"The cure for this trouble is automatic control of the car that comes through the radiator, which can be obtained with the automatic winterfront. There are only four months in the year when the engine should not be equipped with this device if proper care is taken of the engine. It can be detached for this period."

Carbon Monoxide Menace

According to Prof. Alexander Silverman, research expert and head of the department of chemistry of the University of Pittsburgh, the advent of the automobile has brought a new menace with it, the carbon monoxide gas, a deadly poison. He says: "We are slowly being gassed in our congested thoroughfares. Research to prevent the formation of exhaust gases containing carbon monoxide are under way, but progress is slow and it is difficult to convince owners of the importance of using enough air with the gas."

Tuesday Is Safest Day for Driving

Is one day safer than another for driving?

According to figures of the Automobile Club of Southern California some days of the week are more hazardous than others, but the public safety department of the organization points out that there is no day when the utmost caution is not necessary.

After reviewing more than 5,000 accidents recently, it was found that the proportion of accidents was such that:

Tuesday evidently was the safest day for driving.

Wednesday was next safest.

Friday was practically as safe as Wednesday.

Thursday was a fair driving day.

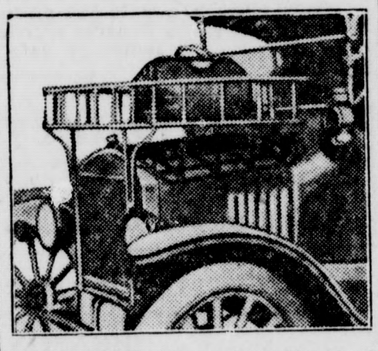
Monday ranks third in danger.

Saturday was second in the number of hazards.

Sunday was most dangerous with a large majority of accidents over the other days of the week.

Baggage Rack Over Car Hood Very Convenient

Th baggage rack shown in the accompanying photograph is in daily use for carrying grips and suitcases of guests from the railway station to an



A Metal Rack, Placed Over the Hood as a Baggage Carrier, Is Both a Convenience and an Advertisement for the Proprietor of the Hotel.

Ohio hotel. The rack is made of ⅜-inch pipe, mounted on two ½-inch rods fixed to the cross member of the automobile frame. The floor is a lattice of iron strips 3-16 by 1 inch in size, placed about 4 inches apart. The rear end of the rack is supported on brackets which project from the cowl. The rack is 24 by 30 inches in size, and carries several heavy suitcases quite easily. Those on the driver's side are laid flat in the rack in order to give a clear view of the road.—Popular Mechanics Magazine.

AUTOMOBILE HINTS

The harder a hit-and-run driver hits the harder he runs.

* * *

Automobilists should never drive a car with tires that are in bad condition.

* * *

It seems that a great many motorists have no ambition to be known as careful drivers.

* * *

The keep-a-going motto is still fatally followed by that dealer in death, the non-stop motorist.

* * *

Don't forget "high" is "reverse" if you turn around to talk to the passengers in the rear seat.

* * *

A petcock leak can be located by squirting a little engine oil over suspected joints. Wherever there are air bubbles, one can count on a leak.

* * *

People have learned why Los Angeles has developed so many clever boxers during the past two years. Dodging automobiles makes 'em that way.

CALIFORNIA NEWS BRIEFS

The average cost of producing grapes per acre during 1926 based on the cost sheets submitted by ninety-two growers and including all varieties, was $102.87, for producing raisins $101.13 and for producing table grapes $101.28, Assistant County Farm Advisor H. R. Keller told the Fresno City Farm Bureau center at a meeting in Fresno recently. Factors in the cost of production, included in the figures, Keller said, include the cost for all labor, material, water and county taxes, interest and depreciation on implements and equipment, on improvements and on vines, the general expense figured at 10 per cent of the labor and material cost and interest on the investment in raw land at 6 per cent.

University of California students have classed themselves as a superstitious lot through the medium of a test provided for them without their knowledge by campus workmen. The workmen left a ladder standing against the gate across the main entrance to the campus. Of 1,385 students who passed through the gate, only five walked under the ladder. The rest avoided it by walking into the street and going around. The count was kept by two university coeds who wanted to get a line on the superstitions of their fellow students.

Trapped at the bottom of San Diego bay on his first trip down as a professional diver, P. R. Nelson narrowly escaped a terrible death a short time ago. He was rescued only after he had been hauled completely around the sunken hull he was working on, and was taken out of his diving armor bleeding from mouth and nose. Nelson's lifeline slipped under the keel of a fishing boat hull he was examining. When he signaled to be pulled up the line under the keel drew him back to the bottom. He finally cleared it.

Buried for years in the back yard of the J. L. Mapeman home, 1720 Ninth street, Sacramento, a 50-cent piece which was coined in 1827 was unearthed and turned over to Milton J. Ferguson, state librarian, for addition to the historical collection maintained by the library. The coin was in a remarkable state of preservation despite its age, indicating that it had not been in circulation for many years before it was buried. Around its edge the wording "fifty cents," "half dollar" is still readable.

Seventy-five olive growers of Corning and Oroville gathered in Hotel Haywood, at Corning recently to take part in the conference that was called for the study of olive culture and its problems. The meeting brought out quite a lot of useful information from the principal speakers, and was followed by a visit from a large number to the experimental grove of W. N. Woodson, where the Agriculture College of the University of California is carrying on its study of pruning.

Purchase of the first California home of Leland Stanford, former governor of California and a man who had much to do with the early day development of the state, is being considered by the Placerville Chamber of Commerce with a view to making the old residence a part of the relics of early day California. The old house is located at Michigan Bluffs, in Placer county, a place where the early gold rush centered for some time.

Professor L. H. Day of the pomology division, College of Agriculture, Davis, is now working on a peculiar disease of cherries which has been found in a few restricted areas in the state. It affects the fruit, causing it to dry up on the tree before ripening. It was first noticed several years ago, and was seen only on certain limbs of trees, but has spread until now there are several orchards affected.

Fruit trees on various ranches of the foothill districts of Tulare county, are reported bearing heavy bloom this spring, with rather an early appearance. Almond trees are shedding their bloom in the Springville locality, and apricot and Santa Rosa plums are now at their heaviest stage of blossom production. Thus far, the bird pest has not interfered as much as usual, according to general reports.

Elijah Shepherd, Santa Rosa, sister of Jack London, the novelist, received word from Cedar Rapids, Iowa, that the American Auxiliary there had located the grave of her mother in a country cemetery at the neighboring town of Moscow. Mrs. London died twenty-five years ago and the location of her grave was not known to her children. She was the step-mother of the novelist.

According to District Manager F. C. Carroll, Corcoran, a new warehouse to cost $19,000 and an increase in the capacity of the Lakeside substation involving an investment of $20,000 are items in the expenditures of the San Joaquin Light and Power Corporation of $272,466. contemplated in this district in the 1927 budget.

All orange trees in California sprang from a seed from Robison Crusoe's island, according to T. A. Van Norden, Pacific Grove. And the first tree to grow in the state was the "mother tree," soon to be dedicated by Native Sons of the Golden West, at Bidwell's Bar, Butte county.

Contractors have started the construction of the sewage treatment plant at Dunsmuir, that has been authorized by the town board. When completed Dunsmuir will have one of the most modern sewage treatment plants in the state according to the state board of health.

Architects have been called to make up plans and specifications for the $100,000 home of the Eastern Star, to be located at Sacramento.

San Francisco sends apricots all around the world. No less than fifty-four foreign countries were customers for California's apricots in 1926.

Raisers representing ownership of 500,000 sheep gathered at Huron, recently, at the meeting barbecue and demonstration of wool grading and mating.

Beef cattle continue to move to market in good volume at prices which are steady to strong. This is according to the California Cattlemen's Association.

McCloud, Siskiyou county, is to have a new jail and a courtroom for the township court. The supervisors have let the contract for the combination building for $2,500.

With the election of Mrs. Jess H. Shreve of San Diego as state regent, Daughters of the American Revolution concluded their annual convention at Santa Cruz last week.

Public officials from all parts of California and representatives of scores of civic and commercial organizations took part in the dedication of the new custom house at Port San Luis recently.

Negotiations are under way which may result in a box factory for Yuba City, to be built in the near future. The promoters would provide box shook for the several packing plants in that section.

More than 1,000 persons attended the laying of the cornerstone of the Galt Joint Union high school a short time ago. The Galt Masonic lodge and the board of trustees of the high school district had charge of the ceremonies.

The directors of the Dixon community council have set April 30 as the date for the annual Spring celebration. This will be the forty-third annual affair. Horse racing, harness and cow pony races will be among the features this year.

California's highway system will be exploited in an exhibit to be placed in the California Building at the Nevada Trans-Continental Highways Exposition in Reno, according to the announcement made at the office of the highway commission.

Work has started on removing the unsightly wooden awnings in Sacramento street, Dunsmuir. It has been suggested to tear out all the old awnings and provide an arcade the whole length of the block and modernize the fronts of all the buildings.

A bond issue of approximately $110,000 to provide for construction of a new sewer in San Rafael, will be placed on the ballot at the April election, following a resolution adopted by the city council. The present sewer line has partly collapsed.

Kern county's raw wool crop of 1,000,000 pounds will be worth approximately $300,000 this year, according to Louis Olcese of Bakersfield, who announced that sheep shearing in the southern San Joaquin valley has begun and will continue until April 15.

Sheriff Thomas F. Flynn of San Francisco, was elected president of the California Sheriffs' association, meeting in Sacramento, succeeding former Sheriff Frank Barnett of Alameda county. Sheriff R. Veale, Contra Costa county, was re-elected secretary of the organization.

The California Cherry growers association announced that an application for an increased tariff on imported cherries had been filed in Washington, D. C., and was under consideration by the tariff commission. The association said all members of congress from the Pacific Coast were supporting the petition.

People of California are obtaining a "salad complex," the state department of agriculture announced. Whether this complex comes from the great amount of lettuce shipped out of California at all seasons of the year, or is the result of preaching of dieticians, has not yet been definitely determined, it was stated.

District forest rangers for the California National Forest closed a five-day annual conference session program at Willows recently. Topics which came before the rangers were on fire protection, improvement work on roads and trails in the mountains, recreation in forests and grazing range plans for the coming summer.

Following the action of certain farm groups to incorporate against the bird pest, comes the announcement from E. A. Reeves of Terra Bella, that sixty acres of apricots and peaches have been ruined by the birds. Reeves says that robins are mostly responsible for the loss, with the mud-eating linnet assisting.

The post office department at Washington shortly will have plans completed and call for bids on the projected federal building in Red Bluff, it was stated in a letter from Congressman Henry L. Englebright of this district to the Red Bluff chamber of commerce. He has requested the department to expediate matter as rapidly as possible.

Two important facts in connection with the production and marketing of Emperor grapes were established as the result of a study made this past season by the Tulare county farm bureau on this important crop. The first is that the light colored Emperor holds up in storage much better than the dark or purple colored fruit. The second is that any handling of the fruit affects its keeping quality. So important is this that naturally poor fruit, very carefully handled in packing, may outkeep much better fruit that is mauled too much in the packing house.

DADDY'S EVENING FAIRY TALE

ZOO CREATURES

Douglas and Dorothy went to the zoo again with Uncle John, and without any one saying a word about themselves a creature spoke.

"If you're going to talk about your two important ends," said a strange-looking lizard, "you should think of me. For I am more important at either end and at both ends than you ever dreamed of being.

"My name is the Stumpet-Tailed or Two-Headed or Shingle-Back Lizard. Three names have I and two heads and that is as much as any creature should ask for or receive!

"My back does look like a shingled roof with the shingles laid over each other—you know what I mean.

"But most important is the fact that I have two heads. By each head I have a pair of little legs and they're made just alike.

"I am from Australia, you know. If you didn't know it, you do now. This is the most interesting thing of all. I can travel either way—yes, I can go in either direction, forward or backward and whenever I want to change my mind I don't have to turn around—I just start going backwards which at once becomes forward for me!

"And here," said the Two-Headed Lizard, "is my little brother."

There, sure enough, was another just like him, and when the keeper took them both up in his hands, each with two heads turned toward the children, they really hardly knew whether they were looking at four animals or two.

Then they paid a call on Mrs. Lemur Monkey from Madagascar and her two young twins. There they were, curled around her back, which is the way monkeys both big and small carry their babies when they're climbing in their tree homes or even in the zoo.

All mother monkeys are very, very devoted to their young and little Mother Lemur was certainly no exception. The children were sleepy little fuzzy

Lemur Monkey From Madagascar.

dears and Mother Lemur had no time to pay any attention to the children. So they listened to her as she talked to them in her sweet little squealing voice and later on they heard a kind of monkey-singing.

So they went about the zoo, and in addition to the many strange and unusual animals they saw all their old friends, such as the lions and the tigers, the rhinoceros and the ducks and the geese and the goats.

Not, of course, that they were exactly old friends with the lions and the tigers, but they were familiar to them by sight whereas many, many of the animals they had never even heard of in all their lives.

Uncle John said that many of them were new to him, too.

They loved the zoo—almost better than any place they had been. They loved the big park itself and they simply loved the animals.

During their stay in the city they often went there, for after a time they actually felt "chummy" with some of the animals.

"I've known a good many of our city zoo keepers," Uncle John said, "and they've certainly helped me to know and appreciate the animals—and I am only one of many. Truly we are fortunate in our animals and in those who are with them."

But that night, after the day of their first visit to the zoo, Uncle John called them, just before they were going to bed.

"I think I know what that song was that Mother Lemur was singing to her babies this afternoon," he said. "She was singing a tree cradle song to them as she held them in her loving monkey arms, for do you remember how the twins snuggled and went sound to sleep after she had stopped singing?

"Yes, I do believe that this was somewhat the way the song went. I've been trying to put those monkey sounds of hers into our words. This is what I've jotted down:

"Little ones, little ones, I love you so,
I'll keep you safe from every foe.
I'll watch you and guard you, you need have no fears,
For I'd never let harm touch my own precious dears.
My darlings, my darlings, I love you so dearly
That no lullaby song can describe my love really.
But you can feel how I love you and that tells you more
Than if I should sing these words over and o'er.
Ah, little ones, little ones, I love you so.
I'll keep you safe from every foe!"

"A wonderful translation of her song," said Douglas.

"And oh, what a zoo trip we had," said Dorothy. "This fine city!"

Secrets of a French Chef

From a village in France, where I was born, I brought some years ago to this country a secret. My great-grandfather, grandfather and my father were all eminent and famous pastry chefs in France, known the country over, famous because of their delicate, appetizing and delicious pastries, cakes and desserts. They catered for most of the celebrated affairs given.

The secret that I brought over with me was a formula of a delightful Marshmallow in Creme form. This product has been and is now manufactured by the Hip-O-Lite Company of St. Louis, Mo., under the name of Hip-O-Lite. It is known and used very largely by housewives throughout the United States. Ask your grocer for Hip-O-Lite.

Pasquale B. Cheminais.

The Hip-O-Lite Company publish an illustrated booklet in colors of famous Caterers and Chefs professional recipes. It is yours for the asking. Address the Hip-O-Lite Company, Department M, 200 Market Street, St. Louis, Missouri.

Horseshoe Pitchers

Horseshoe pitching, which develops muscular co-ordination and physical strength, has acquired a scientific status and is gaining in popularity. In a recent championship tournament one contestant pitched 5,632 horseshoes, weighing 14,800 pounds, and walked 27 miles. The game is most popular in the Middle West. An official score card is used and individual ability is rated as in baseball.

DEMAND "BAYER" ASPIRIN

Aspirin Marked With "Bayer Cross" Has Been Proved Safe by Millions.

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 26 years.

Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

Among Scientists

"What is that distinguished-looking man's business?"

"Grave robber," answered Miss Cayenne.

"His looks belie his trade."

"Not at all. He confines himself exclusively to Egyptian tombs."—Washington Star.

Personal Comment by Mrs. G. E. Tower

San Francisco, Calif.—"For the past seven or eight years I have taken Dr. Pierce's remedies off and on, that is, the 'Favorite Prescription,' and the 'Golden Medical Discovery.' I began with these when I was about grown. The 'Favorite Prescription' is the best medicine any woman ever took. The 'Golden Medical Discovery' is fine for the stomach—excellent for a person who is rundown in health."—Mrs. G. E. Tower, 1105 Laguna St.

Obtain now from your druggist, Dr. Pierce's famous remedies.

Write Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., for free confidential medical advice.

Schoolboys' Ambitions

A London schoolmaster gives the result of a ballot from more than 100 boys of preparatory school age as to the profession or occupation in life that each hoped to adopt: "Air force 21, motor engineers 10, electrical engineers 13, navy 12, army 10, commerce 6, law 5, stage 4, politics 3, journalism and literature 3, private detectives 3, architects 3, explorers 2, civil engineers 2, painters 1, church 1, schoolmasters 1.

PERMANENT RELIEF FOR ECZEMA Used by noted doctor 40 yrs. Don't order unless you will follow directions. Send $2 or write MADDEN COMPANY, Box 872, El Paso, Texas, for full information.—Adv.

Not Necessary

"Mummy, may I go to the circus this afternoon?"

"Why, Betty, fancy going to the circus when your Aunt Sarah is here!"

"THE JUNIOR TEXT BOOK" for an Up-to-Date Church. A Most Helpful Book. 25 cents. Address the Author, W. H. KERR, Great Bend, Kansas.—Adv.

A Bad Break

Mother—Why are you crying, Bobby?

Bobby—I have a toothache and there's no school today.

Why buy many bottles of other vermifuges when one bottle of Dr. Peery's "Dead Shot" will work without fail? Adv.

It is some compensation for great evils that they enforce great lessons. —Bovee.

Sure Relief

The great value of Bell-Ans in the relief of digestive disorders of the stomach and bowels is proved by its substantial increase in use every year for the past thirty years. Promptly and properly taken we have never known it to fail. Send for free samples to Bell & Co., Inc., Orangeburg, N. Y.

Perfectly Harmless to Young or Old

HOPE FOR BOULDER DAM

Supporters of the Boulder dam project confidently predict that legislation will be passed for its development at the next session of Congress. Addison T. Smith, chairman of the House Committee of Irrigation and Reclamation, said:

"A recent poll of the House membership on the subject has convinced the friends of the legislation that at least three-fourths of the membership are in favor of the project. I think that the Senate is also favorable to the proposal. I do not have any doubt but what the bill will be reported early in the forthcoming session of Congress and passed."

It is sincerely to be hoped that Congressman Smith is correct in his estimate of the attitude of the Congressmen, and that this important measure will get quick and favorable action. This project means more to the West than any other measure now before the lawmakers.

NICARAGUAN CONTROL

A statement authorized at the White House says that President Coolidge doubts that the United States would deem it desirable to enter into a treaty with Nicaragua, such as has been proposed by President Diaz. The treaty is said to be similar to the treaty of 1915 between the United States and Haiti, and calls for a protectorate over Nicaragua. It was stated that it has been the policy of President Coolidge to let these countries work out their own salvation. Therefore, the president believes that to take on a permanent obligation in Nicaragua would be proceeding a little farther than this country would care to go.

So it would seem that Nicaragua must be content with the policing of certain sections by our naval policemen.

FARMERS NOT DISCOURAGED

Not being discouraged by the presidents' veto, agricultural organizations are already formulating an aggressive campaign to bring about the enactment of the McNary-Haugen farm relief bill by the Seventieth Congress. Representative Dickinson, of Iowa, said that the fight is to be carried on by an educational campaign through literature and speeches by men to be sent to a number of states. Every effort, he said, will be made, as a part of the drive, to win preidential approval when the new Congress shall have taken final action.

Announcements from the White House state that President Coolidge intends to spend his summer vacation in the West. The Colorado Springs home of Spencer Penrose has been offered for the summer use of the chief executive, and he is said to look upon the offer with favor. Rumors have it that the president will take advantage of his trip into the West to present his views of farm relief in that section.

ARMY AIR MANEUVERS

Advocates of a strong air corps as a means of national defense will be particularly interested in the extensive plans being made for army air maneuvers to be held at San Antonio, Texas, from May 11 to 21.

These excersises will have as participants approximately 100 airplanes, the largest number ever assembled in this country for maneuvers, to be brought from all over the United States, under command of Brigadier General James E. Fechet.

In going from their home posts to San Antonio and return these planes will cover a total of about 475,000 air miles, or an average of 4,750 miles for each plane. Residents of twenty states will have the opportunity of seeing some of the planes in flight, which fact alone will tend to create wide interest in the event.

The maneuvers will include attacks by air forces against ground troops of the second division, to test the adequacy of such attacks and the effectiveness of counter measures by ground troops. In other phases of the maneuvers the air and ground forces will operate together against an imaginary common enemy, giving field officers an opportunity to handle a large body of combined troops.

These maneuvers will doubtless provide excellent and necessary training for the personnel engaged, but unless greater precautions than usual are taken, it will not be surprising to see the event marked by a distressing number of casualties.

Officers in charge have the responsibility of seeing that needless loss of life is avoided. Official investigations afterwards will not do the victims any good.

EXPERT THINKERS

In keeping with the tendency to specialization in all lines of effort, a recent writer suggests that we may finally develop a class of professional thinkers.

It is pointed out that for the average person, real thinking is not only the most difficult task, but the one least efficiently performed, even when attempted.

According to the plan, the professional thinker would be consulted in all matters involving any except the most elementary mental processes. He might wear a distinctive uniform or badge as a mark of his profession.

While the idea may appear fantastic, is is perhaps not so far-fetched as it seems. In all except the most ordinary affairs, a majority of persons depend on others to do their thinking for them now.

When an important question arises, the usual procedure is to side-step a decision until it is found out what So-and-So thinks about it. And, unfortunately, So-and-So quite often thinks wrong.

MEXICO IS OPTIMISTIC

A distinct feeling of optimism that a way will be found to compose the difficulties with the United States over Mexico's alien land and petroleum laws is apparent in Mexican official circles, according to an article in the New York Times. Persons high in the confidence of the Mexican government officials say this optimism is well founded and that some are in favor of calling a special session of congress to initiate amendments to Article 27, which, with the law and regulations based on it, is the basis of the difficulty with the United States over property rights of Americans.

FOUR BILLIONS FOR EXPENSES

A total of $4,211,201,270.41 was provided for current expenses of the government for the fiscal year beginning July 1, Chairman Madden, of the House Appropriations Committee, announced in summing up the financial activities of the recent session of Congress. While the amount is $242,600,525 below that made available during the present fiscal year, the chairman said, the reduction would have been only $100,000,000 if the Senate had passed the second deficiency bill and the public buildings measure.

THREE POWER CONFERENCE

After Italy and France had declined to participate in a five power conference for the limitation of naval armaments, the United States proposed that Japan, Great Britain and the United States hold such a conference in Geneva. This proposal was accepted by the other two nations, and the three-power conference will probably be held in Geneva about the first of June.

And then we will see whether the United States is to benefit by the conference or not.

DECISION AFFECTING ALIENS

It was recently held by the Circuit Court of Appeals that an alien who voluntarily leaves this country is subject to all the provisions of the Immigration Act, when he seeks to return, and that he may be denied entrance on account of crimes that he has committed in this country. It was also held that a pardon is of assistance to an ailen in a deportation proceeding only when the crime of which he is pardoned was committed within the five year period after entry into this country.

UNCLE SAM'S HOT STUFF?

Another fine example of government bureaucracy is seen in a recent warning by the Federal Trade Commission addressed to the Durant, Oklahoma, Weekly News, which had been doing battle for home merchants against mail order houses.

The News had published an offer of a year's subscription to anyone who would deliver at its office a mail order catalouge weighing two pounds or more. Of course, the idea was merely to emphasize the advisability of buying at home and incidentally to get the catalogues out of the way.

But the Federal Trade Commission ruled that this was interfering with the business of the mail order houses, and ordered the News to stop buying catalogues. This zeal to "protect" the poor, downtrodden mail order houses is truly touching. Really, it is hot stuff.

At any rate, we now know how sacred is the mail order catalogue. It may be neither bought nor sold. It might be adjudged high treason to consign it to the garbage can. In order to safely avert the wrath of the Federal Trade Commission, it would be well to keep it in a glass case.

NOTICE OF SALE OF REAL PROPERTY AT PRIVATE SALE.

No. 3927.

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of PETER H. ENGELBERT, sometimes known as P. H. ENGELBERT, Deceased.

NOTICE IS HEREBY GIVEN that the undersigned, DELIA ENGELBERT, as the Administratrix with the Will Annexed of the Estate of Peter H. Engelbert, sometimes known as P. H. Engelbert, deceased, will on or after the 26th day of March, 1927, sell at private sale to the highest and best bidder, and upon the terms hereinafter mentioned, and subject to confirmation by the Superior Court of the State of California, in and for the County of San Mateo, all the right, title and interest of the said Peter H. Engelbert, sometimes known as P. H. Engelbert, deceased, at the time of his death, and all the right, title and interest which the estate of said decedent has or shall have up to the time of the making of an administratrix' deed, pursuant to an order of confirmation of sale, in the matter of said estate, by operation of law or otherwise acquired since the time of his death, in and to all that certain real property situate in the City of Daly City, County of San Mateo, State of California, and particularly described as follows, to-wit:

BEGINNING at the point of intersection of the Southwesterly line of Bepler Street with the Northwesterly line of San Jose Avenue, as said Bepler Street and San Jose Avenue appear on the official map of the City of Daly City, County of San Mateo, State of California; running thence Northwesterly along the said Southwesterly line of Bepler Street eighty (80) feet; thence at a right angle Southwesterly fifty (50) feet; thence at a right angle Southeasterly eighty (80) feet to the Northwesterly line of San Jose Avenue; thence Northeasterly along the Northwesterly line of San Jose Avenue fifty (50) feet to the point of commencement.

BEING Lots Eighteen (18) and Nineteen (19) in Block One (1), of Hillcrest, San Mateo County, State of California, as the same is designated upon the map of Hillcrest recorded March 14, 1907, in Volume 14 of Miscellaneous Records, at Page 232, in the office of the County Recorder of San Mateo County, State of California.

TERMS AND CONDITIONS OF SALE: Cash in United States Gold Coin, three per cent (3%) of purchase price to accompany bid, and balance on confirmation of sale by said Superior Court.

Taxes, insurance and interest, if any, to be pro rated as of date of delivery of deed.

All bids or offers for said real property must be in writing and may be left at the office of Halsey L. Rixford, attorney for said administratrix, 1301 Claus Spreckels Building, 703 Market Street, San Francisco, California, or may be delivered to Bank of Italy N. T. & S. A., Daly City Branch, Daly City, California, or to the undersigned administratrix personally at No. 7 Bepler Street, Daly City, County of San Mateo, California, or may be filed in the office of the Clerk of said Court at any time after the first publication of this notice, and before the making of said sale.

DATED: March 8th, 1927.

DELIA ENGELBERT.
Administratrix with the Will Annexed of the Estate of Peter H. Engelbert, sometimes known as P. H. Engelbert, deceased.

The Scientific American records a recent case in which a pair of forceps was sewed up in a patient's abdomen after an operation. A second operation was performed, which was successful so far as recovering the forceps were concerned, but the patient died. And, as the journal remarks, "this is the sort of happening that provides anti-medical cranks with ammunition to fire at the doctors."

A Senator declares that short sessions of Congress involve an enormous waste of public money. But what of the long ones?

Colma News Notes

The Junior Santana Club held a very successful whist Thursday in Holy Angels' hall.

Mrs. Guiberson returned this week, after spending a year and a half with her daughter in Texas.

The Colma Volunteer Fire Department will hold its regular whist party Saturday, April 9, in Jefferson Hall.

Little Clara Vallerino suffered a badly burned arm when she fell in a bonfire in the back yard of her home.

Ricco Biggio is back on crutches again after a two weeks vacation from them. He has been suffering from rheumatism for the past three months.

A number of young folks from Colma attended the girls' basketball game Wednesday night between the West Coast Life Insurance Company and the Western Coast Life Insurance Company at the French courts, San Francisco.

Mrs. J. Belli entertained a number of friends, relatives and employes of the Belli store, at a housewarming party in her new home on Market street, Colma, on Wednesday evening. Over twenty-seven guests present had an excellent time and all were delighted at the beautiful new home Mrs. Belli enjoys.

The school election will be held today from 7 a. m. to 7 p. m. Colma's polling place is the Jefferson school. The election officials consist of Mrs. Zipser, Mrs. Rudolphus and Mr. H. Pierce. The candidate for grammar school trustee is Wm. Sweeney, incumbent, and those for high school trustee are T. Bentley, incumbent, and Mrs. Lillah Brown.

The State Highway Commission in taking settlements with the landowners along the new bottleneck is producing several freaks. The road will cut through the center of Joe Millett's house and put a three-foot fill alongside of his auto camp. He will have to take special measures in building rock screens around his trees to protect them from dying. A six foot five inch cut will be taken from immediately in front of Mr. Scramaglia's house, and will leave it perched up on a small sized precipice.

The remains of Ted Goode, who was found dead Thursday morning of last week beside a still in the hills opposite the Home of Peace cemetery, were buried Tuesday afternoon from the mortuary chapel of W. C. Lasswell & Co. Services were conducted by the Rev. Pitman, house minister of Lasswell & Co., and the singing by Professor Nolan and Miss Ballatier. Interment was in Mt. Olivet cemetery. The inquest was conducted by Coroner Brooke at 1:30 a. m. last Friday morning. He was assisted by Dr. Rankin and Deputy Coroner Luella D. Lasswell. Death was due to pneumonia.

The mass meeting called Monday night by the committee on incorporation was the best attended to date. About 125 persons were present, all enthusiastic over the plans for incorporation. Mrs. Margaret P. Henderson, chairman of the committee, acted as chairman of the meeting. The meeting was for the purpose of effecting a permanent committee to further plans for the incorporation of Colma. Those elected were Mrs. M. P. Henderson, chairman; J. L. Casey, secretary; U. Grannucci, treasurer. A subscription was quickly made up to defray the cost of publication of the petition.

One of the most successful whists of the year was held Saturday evening by the Girls' Club of Colma, at the Colma Community Center. Eighteen tables were filled by players. The decorations, put up by the members of the committee, were white and gold, the club's colors, and beautiful greens. After the whist there was old-fashioned dancing, with excellent music by Julia Schindler's orchestra. All the girls and the club directors were present, and have been earnestly requested to repeat thir success several times a year, rather than annually. Of the proceeds of this affair $20 was sent to the library fund of the Veterans' Hospital at Palo Alto.

Wednesday, March 30, will be looked forward to with high hopes by the patrons of the State Theatre, as "The Dream Waltz" will be presented at that time. Wednesday night is also specialty night, when there is always something out of the ordinary.

WARDEN CONFISCATES INGENIOUS BIRD NET

A most ingenious net device for the capture of birds was confiscated by Game Warden Jack Burke when he arrested its operator, Charles Borg of Colma, last Sunday. The device was found set up in the hills south of Colma. It consisted of two nets and a number of cages. Decoy birds were put in the cages, and strings were tied to their feet.

When flocks of birds approached, the operator would release a few of the birds from their cages. They would flutter about to free themselves from their leashes, and members of the flock would approach. When a large number gathered around the fluttering birds, the operator would release the nets. They would turn over and imprison birds, making their capture an easy matter.

The device was set up on the lawn in front of the court house in Redwood City, in order that Justice Ray Griffin could see how it was operated. Later he found Borg guilty and fined him $25. Game Warden Burke said he had been seeking the net for three years.

HOG RAISERS DESIRE PERMIT FOR RANCHES

Applications of seven ranchers for permission to establish hog ranches in San Mateo county under the supervision of local health departments, were set for hearing on April 4, at the meeting of the San Mateo county board of supervisors on Monday. The applicants were Angelo Olcese, E. Lombardi, James Callan, Thomas J. Callan, G. Canpucci, Fabri & Co., and George J. Lagomarsino.

The ranchers were recently ordered out of San Francisco by the board of health of that city. The applications were presented Monday by District Attorney Franklin Swart after he had investigated the sites of the proposed ranches.

MILK INSPECTION PLAN DISCUSSED

The problem of maintaining a county milk inspector who would also be under the jurisdiction of municipalities and who would receive a share of his compensation from the latter, was discussed at length Friday night at a meeting of the Burlingame and San Mateo boards of health, in San Mateo.

Under the present system of milk inspection, which is free from dictation from individual cities, the payment of fees by dealers to the county is alleged to be illegal. To allow municipalities to receive their individual collections and to supervise the activity of the inspector while he is operating within the city limits, was the tenor of a resolution passed by the San Mateo board of health. During the discussion it was alleged that inspections have not been regular in San Mateo and Burlingame, and that reports on findings were made too infrequently by the inspector.

The two local boards of health expressed a great need for the milk inspection ordinance to be revised in line with the meat and food stuffs ordinance, which gives municipalities jurisdiction over the county inspector and requires frequent reports.

On March 31 and April 1, the State Theatre will present Milton Sills, Betty Bronson and Noah Beery in "Paradise." This is a story that will no doubt prove interesting and entertaining to all, and crowded houses are expected.

Down in Mexico some one may have ti pour water on the troubled oil.

PETITION

Before the Board of Supervisors of the County of San Mateo, State of California.

In the Matter of the Application of Certain Electors (residents therein) to Incorporate a Certain District in the County of San Mateo, as a City of the Sixth Class, to be known as the City of Colma.

To the Honorable Board of Supervisors of the County of San Mateo, State of California:

The petition of the undersigned respectfully shows:

That we, and each of us, are qualified electors of the County of San Mateo, State of California, and we, and each of us, are residents within the limits and boundaries hereinafter set forth and proposed for the municipal corporation hereinafter named, and proposed to be incorporated.

That the lands and premises and district contained within the boundaries herein set forth and described are situated in and constitute a portion of the County of San Mateo, State of California.

That said district contains, and there reside within the boundaries of said proposed municipal corporation, which boundaries are hereinafter mentioned, less than Three Thousand (3000) inhabitants and more than Five Hundred (500) inhabitants, to-wit: Twenty-five Hundred (2500) inhabitants, as nearly as can be ascertained by your petitioners.

That the lands and premises and the district contained within said boundaries are not incorporated as a municipal corporation, and form no part of any municipal corporation.

That the name which we desire said municipal corporation to have and bear is as follows, to-wit: CITY OF COLMA.

That the boundaries of the lands and premises and district which we desire to have incorporated into a municipal corporation, as herein prayed for, and for the organization of which as a municipal corporation we now ask, are as follows, to-wit:

BEGINNING at a point where the southerly line of Thiers Street intersects the easterly line of that certain subdivision designated as Abbey Homestead, map of which subdivision was filed for record January 2, 1872, in Volume "B" of Maps at page 43, San Mateo County Records, said point of beginning also being on the southerly boundary line of the City of Daly City;

RUNNING THENCE from said point of beginning in a general southerly and southeasterly direction along the easterly line of the above mentioned subdivision to the centerline of Hoffman Street, said point being on the northerly boundary line of the Town of Lawndale; thence southwesterly and westerly and following along the northerly boundary of the Town of Lawndale to the centerline of the County Road commonly known as San Pedro Road; thence northerly along the centerline of said San Pedro Road to its intersection with the northerly line of the County Road commonly known as Rt2, Div. 1, San Mateo County Highways, the junction of said road being at the easterly line of Lot 2 "Pierce-Van Winkle-Patton Tract," map of which tract was filed for record December 19th, 1883, in Volume "B" of Maps at page 3, San Mateo County Records; thence westerly along the northerly line of said County Road to its intersection with the line dividing lots 16 and 17 in said last mentioned map; thence northerly along the line dividing lots 16 and 17 to the southerly line of the School House Homestead, as shown on "Map of School Homestead Association" filed for record July 10, 1872, in Volume "C" of Maps at page 61, San Mateo County Records; running thence westerly along said southerly line to the westerly line of Brady Street; thence northerly along the westerly line of Brady Street to the southerly line of the Seventy-five Dollar Lot Homestead as shown on map reeorded October 3, 1870, in Volume "E" of Maps at page 63, San Mateo County Records; thence westerly and northerly along the southerly and westerly line of said Seventy-five Dollar Lot Homestead to the southerly line of 89th Street; thence westerly along the westerly production of the southerly line of 89th Street 285.75 feet; thence northerly along the westerly line of White Street North to the the southerly line of Lot 16, "Map of S. S. White Tract," filed for record October 19th, 1871, in Volume "E" of Maps at page 21, San Mateo County Records; running thence along the southerly line of said Lot 16 to the westerly line of the above mentioned "S. S. White Tract;" thence northerly, westerly, and northerly along the boundary line of said "S. S. White Tract" to the northerly line of White Street East, as shown on said map; thence easterly along the northerly line of said "S. S. White Tract" to the northeasterly corner thereof; thence southerly along the easterly line of said "S. S. White Tract" to the northerly line of the Ellen C. Burnett 31.04 acre tract; thence easterly along the northerly line of said 31.04 acre tract and its production easterly to the easterly line of Junipero Serra Boulevard; thence northerly along the easterly line of said Junipero Serra Boulevard to its intersection with the southerly line of Citrus Avenue produced westerly; thence easterly along said production, which line is the southerly line of the corporate limits of the City of Daly City, and continuing along the southerly limits of the City of Daly City to the point of beginning.

WHEREFORE, we your petitioners, pray that all of said County of San Mateo, included within the aforesaid boundaries to be incorporated as a municipal corporation, to be known as and to have and bear the corporate name of the CITY OF COLMA as aforesaid, and that your Honorable Board take such action and proceedings therefor as may be required, under the provisions of, and as provided by an Act of the Legislature of the State of California, entitled: "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13th, 1883, and the Acts amendatory thereto.

DATED: March 11, 1927.

BOARD CONSIDERS RELIEF HOME BIDS

Final action on bids for construction of a new $80,000 county relief home, and a $15,000 additional unit for the Community hospital at Beresford, was taken under advisement by the San Mateo county board of supervisors on Monday, following the opening of bids at the morning session. Award of the contracts is expected within two weeks, it was stated.

The supervisors recommended an ordinance to prohibit parking of automobiles and the holding of picnics along the Skyline boulevard in the vicinity of Sawyer's Camp. District Attorney Franklin Swart was asked to prepare an ordinance for regulation of the alleged nuisance, brought to the attention of the board by San Francisco health authorities, who declared that picnic parties have menaced the purity of San Francisco's water supply by leaving rubbish on the grounds in question.

URGED ANOTHER GREEK NAME FOR TELEPHONE

At one time serious consideration was given to the advisability of changing the name of the telephone to "plesiophone."

John E. Hudson, one of the early presidents of the American Telephone and Telegraph Company, was also a master of the Greek language and was very fond of using it. In fact, it is recorded that sometimes he even wrote his business memoranda in Greek. It is not surprising, therefore, that the Greek word "plesiophone" which means "the voice of your neighbor" appealed to him, but perhaps it was fortunate that the name was never changed. The word "telephone" means "distant sound," while "telegraph" means "distant writing," and "telescope," "distant sight."

Each generation invents new sins, but the old models are seldom junked.

NOTICE OF SALE

Special Lien on Personal Property.

Notice is hereby given in pursuance to Section 3052 of the Civil Code of the State of California, the undersigned will sell at public auction on Monday, April 4, 1927, at the hour of eleven o'clock A. M., at that certain place of business: The Automotive Repair and Tow Service, Mission Road, Colma, California, that certain automobile, to-wit:

Instant hot water at 3 a. m. by turning faucet

Automatic gas water heater brings comfort, convenience

The nearest hot water faucet is always a source of refreshing comfort — with an automatic gas water heater in your home.

It supplies plentiful hot water any time. All you do is turn on a hot water tap for a cupful or gallons of steaming water.

Two kinds of automatic heaters

There is one type of heater called the "Automatic Storage System." It keeps a supply of steaming hot water in the boiler—always ready for use. While another, called the "Automatic Instantaneous Type," heats an endless stream of water at the turn of a faucet. No boiler needed here, for the water heats as it flows through hot coils.

The Leading Lady

By GERALDINE BONNER

WNU Service

(Copyright by The Bobbs-Merrill Co.)

STORY FROM THE START

While despondent over the enforced hiding of her fiance, Jim Dallas, slayer in self-defense of Homer Parkinson, member of an influential family, Sybil Saunders, popular actress, is engaged to play Viola in a charity performance of "Twelfth Night" on Gull island, on the Maine coast. After the play Hugh Bassett, Anne Tracy's fiance, Tells Joe he has heard he is spying on Sybil to learn the whereabouts of Jim Dallas and earn the reward offered by the Parkinson family. The boy denies it.

CHAPTER II—Continued

—5—

He stopped. Bassett's eye was steady on him in a cold command he knew. There was the same cold quality in the director's voice:

"If the position Sybil's in has made her suspicious, that's all right. I'd like to believe it was the case. But if any of us—supposedly her friends—had inserted themselves in here to carry on police surveillance, using me to get them in—well, I'd not think that all right."

Joe leaned over the banister. His control was shaken, his voice hoarsely urgent:

"You got to be fair, Bassett, and because you're sorry for her is no reason to set her word over mine. It's not true. Don't you believe me?"

Bassett did not answer for a moment. He wanted to believe and he doubted; he thought of Joe's desire to come, of the reward:

"I guess you know, Joe, you can trust me to be fair, but I'm not going to commit myself till I know. It won't be hard to do that. I can find out when I get back to New York. And take this from me—if what Sybil says is true I'm done with you. No more help from me, no more work in any company I manage. And I fancy the whole theatrical profession will feel the same way." He drew back from the stair-foot. The disagreeable interview was over. "There's no good talking any more about it. Accusations and denials don't get us anywhere. We'll let it rest till I've made my inquiries. I'll say good-by now and hope you'll have a good time in the woods."

He turned and walked up the hall to his room on the garden front next the Stokes'. Joe gathered his luggage and went the opposite way, down the hall and into the big central apartment. At the entrance door he set down his luggage and as he bent over it a whispered stream of curses flowed from his lips. He cursed Bassett and his luck, but Sybil with a savage variety of epithet and choice of misfortune, for she had undone him. Straightening up, he looked blankly about—his inner turmoil was such he hardly knew where he was—and he retraced his steps, seeking the seclusion of his room, went up the stairs in noiseless vaulting strides like a frightened spider climbing to its web.

CHAPTER III

Anne had taken off her costume and slipped into a negligee to do her packing comfortably, and then decided she had better bid good-by to Joe first. She wanted to tell him her great secret, see an answering joy leap into his face, for he thought more of Bassett than anybody, and he'd be so surprised to hear that Anne, her charms held at a low valuation, had won such a prize.

She passed the long line of closed doors, voices coming from behind Mrs. Cornell's, and reaching Joe's knocked. A "come in," uninvitingly loud and harsh, answered her and she entered. Joe was sitting in a low armchair, bent forward, his hands holding a cane with which he was tapping the floor. He looked up to see who it was; then, without greeting or comment, drooped his head and went on lightly striking the cane on the carpet as if he were hammering in a nail and it required all his attention, then raised his head and looked at her—what have you come here for? the look said.

It was not a reception to encourage confidences and she stood uncomfortably regarding him, trying to find something to say that would dispel his somber ill humor.

"You're all ready? Where's your luggage?"

"Down by the door. Is there anything else you want to know?"

"I don't want to know, I was thinking of you. You're always late, and it's different here with only one way to get ashore and Gabriel never willing to wait."

He made no answer, continuing his play with the cane. She knew that something was wrong and sat down on the arm of a chair, uneasy, wondering what it was:

"I'm glad you've managed this holiday. And it's jolly having Tommy Travers, he's such a sport. You'll meet him tonight at Bangor. At the Algonquin inn—wasn't that the name of it?"

"Um."

"I want to be sure, because if any important mail should come for you I could send it there to meet you on your way back. Algonquin inn—I'll remember that. Then off tomorrow morning—it'll be lovely in the woods now."

"Any place would be lovely after this beastly hole."

"Beastly hole! I thought you liked it!"

"Did you? Take another guess."

"You expected to like it. You wanted to come."

He made no answer, but slanting his body sidewise with an air of ostentatious endurance, took out his watch and looked at it. She ignored the hint—you couldn't be sensitive with Joe—and leaning toward him asked:

"What's the matter, Joe?"

"Matter—with what?"

"You! Has anything happened?"

"Oh, no, nothing's happened." His words were mincingly soft. "What could happen with such a charming lot of people and Miss Saunders playing the star role in the performance and out?"

It was Sybil then—he'd been working himself into a bad temper over

"But I Got Teeth—I Can Bite."

her treatment of him. Anne had thought it odd he had not mentioned it before:

"You're angry with Sybil, and I don't think she has been very nice to you. I've noticed it, especially the last three days and this afternoon when we were sitting out there on the rock I tried to make her tell me why."

He raised his head; the profile sharply defined against the window showed a working muscle in the cheek: "And did she tell you?"

"No, she didn't seem to want to talk about it. She changed the subject. There's no use getting annoyed about it, because I don't think she has any reason. You have to make excuses for her. She's gone through this awful experience and her nerves are all wracked to pieces. You have to be patient and take her as a sort of afflicted person—"

He dashed the cane down and jumped to his feet in a volcanic explosion of rage:

"I don't take her that way. I take her for what she is, a d—d lying hypocrite."

"Joe!" She was amazed, not so much at the words as at the suddenness of the outburst and the contorted passion of his face.

"She thinks she can treat me any way she wants and get away with it. Well, she'll find her mistake, she's taken the wrong turning this time. She takes me for a yellow dog she can kick whenever she feels like it. But I got teeth—I can bite. Patient—be patient— G—d, I'd like to wring her neck, the d—d—"

He used an epithet that brought Anne to her feet, breathing battle: "Don't dare to say that of my friend, Joe Tracy."

He stood in front of her, hump-shouldered, with outthrust jaw, brows drawn low over eyes gleaming like a cat's. She had never seen him look like that; he seemed a stranger, a horrible stranger, and she drew away, aghast at the revelation of a being so sinisterly unfamiliar. Her look brought him back to self-control. He jerked his head up, ran a hand over his hair, and turned away to the window. Standing there he said:

"Well, I take that back. I didn't mean to say it. But she's made me mad; I think she'd make anybody."

The tone, surly still, had a placating quality; it was as near an apology as Joe could ever come. She felt immeasurably relieved, for he had frightened her. She accepted his amends without comment, but she could not resist a sisterly admonition:

"If you'd only stop getting mad over small things you'd find life so much easier."

He laughed:

"Good advice from little sister! It doesn't cost anything and it's the correct ingenue pose."

He turned from the window smiling, Joe at his most amiable. If he had met her this way she would have poured out her secret. But her high mood had fallen and besides he wanted her to go—he said he had a letter to write yet. Lounging toward her he put his hands on her shoulders, gave her a light kiss on the cheek and pushed her toward the door.

On her way back along the gallery she recalled his face in that moment of rage with troubled question. She wondered if there was more disturbing him than she knew—it was an extraordinary exhibition of anger for such a cause. She heaved a sigh of relief at the thought that he was going. In his present mood there was no knowing what clashes there might be, and it was the last evening, and there would be a full moon, and she and Bassett would walk like lovers under its magic light.

When her door had closed, the gallery and living room became as quiet as though the house were unoccupied. Sybil, approaching it, heard no sound of voices, a fact that reassured her, for the long day had tired her and she had no mind for talk. She was coming in by the balcony when she saw Flora Stokes sitting there reading and deflected her course toward the path that skirted the building's front. If Flora noticed her she made no sign, her eyes glued to her book, and Sybil, stepping softly, for she dreaded the woman's resentful glances, passed along to the entrance of the living room. The place was deserted and she stopped on the threshold for a last look at the sky's fading splendors.

Across the depths of the room the door into the hall opened, but so gently that she did not hear it. Stokes made this noiseless entrance in the hope that she might be there, and now, seeing his hope fulfilled, closed the door as carefully, standing against it watching her.

Seeing that she did not turn he pronounced her name. At that she wheeled, lightning-quick, and came forward from beneath the deep jut of the gallery assuming as unconcerned a manner as she could.

"Lovely evening," she said as she advanced. "It's been hard to come in."

"Evidently from the length of time you stayed out there. I've been waiting for you."

It was not a propitious beginning, especially as he still stood against the door as if intending to bar her exit.

"I'm going upstairs to dress now."

"There's plenty of time. You can give me a few minutes. I've something I want to say to you."

"Oh, Aleck!" She stopped with an air of weary expostulation. "Don't say anything more. Don't begin that dreadful subject. I'm sick of it, I loathe it and can't you see it isn't any use?"

He went on as if he hadn't heard her:

"I've been trying for days, ever since I came here. And you keep avoiding me, always having some one with you. Now we'll be going tomorrow, we may not have another chance and I must see you and tell you"—he stopped and looked at the gallery. "Did I hear a step up there?"

(TO BE CONTINUED.)

Lure of City Holds Even Poorest People

The hopelessness of efforts to induce people to move from the crowded cities to the serenity and beauty of the country, according to the Lincoln Journal, was brought home to a Londoner who was asked for a copper by a hobbling old man. When he asked why he did not live in the country, where his old age pension of ten shillings a week would go much further than in the city, the old fellow was ready with his reason. "I should be miserable there," he said, "without the refinements of London life." When pressed for particulars he said that these were the music in the parks and the benefit of the public libraries. He was very fond of the British museum. George Bernard Shaw was his favorite author. And there you are. It reminded the hearer of the old people in a Shoreditch almshouse who didn't want to be sent to the country. They liked London and didn't want to be kept awake by the nightingales. One of them liked best of all sounds the clip, clop, clip, clop and the jingle bells on the hansom cabs. What is the humanitarian to do with people who are as human as that?

Conversation is a traffic; and if you enter into it without some stock of knowledge to balance the account perpetually betwixt you, the trade drops at once.—Sterne

Accessories That Match, Paris Fad

Harmony Chief Aim, According to Offerings at the Spring Openings.

One of the significant messages of the spring openings, writes a Paris fashion correspondent in the New York Herald-Tribune, is that accessories are to come in for a greater share of importance than has been their lot even in recent seasons. The reasons for this are twofold. In the first place an undeniably feminine note is laying emphasis upon anything reminiscent of frills and furbelows; in the second place, one of the decided mandates of the haute couture this season is that the accessory must blend with the costume. This is not to say that they must precisely match. From the numerous unique novelties that Paris is offering this season the task of selecting some which will harmonize with your frock or suit or coat should be relatively simple. Some suggestions are appended.

Decorative pins are everywhere a favored form of trimming—one sees them on the hat, for the shoulder, throat or belt of the frock; pins with no other aim in life than to be beautiful. The wise Chanel suggests a set consisting of a matching pin and buckle—a straight pin of large pearls for the shoulder and rows of pearls and metal simulating a belt buckle for the girdle, smartly carrying out the ensemble idea in jewelry. The earring hatpin is a novelty which defers to the vogue for a single earring; this is a long, dagger-shaped hatpin of rhinestones and metal, the end of the dagger hanging loosely over a turned-down brim and serving as a pendant earring. Another charming hat ornament, and one which has been given considerable attention along the Riviera, is the combination of a pair of Buddha pins worn crossed on the brim—the Buddhas being stones of different colors, often one jade green, the other a red stone.

Handbags grow in variety and attractiveness. The new felt bag, made originally from a Reboux felt tam, has been gathered into a pouch, a metal frame placed around the head-band, and the loose bag part hangs full and round, but so crushable as not to be in the least unwieldy. Fine envelopes of grain morocco in purple or black are to be seen along the Bois—envelopes of all sizes for every purpose, the smallest being perfectly flat, with the lid fitted with flat purse and mirror. Very little larger, even, is the unique overnight suitcase, which when closed presents the appearance of a large handbag on one side, but is made with an extension gusset on the other closed by straps at the top.

Many novelties these days are given an added touch of the unique by choosing as their medium very fine leathers. Compacts containing mirror, powder and comb, and sometimes other tiny feminine accessories, appear in boudoir colors in crushed morocco. A tiny square watch case for the dresser is shown in crushed morocco in tan, green, gray, rose, purple or blue, and would make an exquisite gift. Jewel boxes, made like little suitcases, with partitions, come in morocco in the various colors of morocco or tan pigskin or crushed calf in the pastel shades. Gold tooled photograph frames for the chiffonier are made in crushed calfskin in all the pastel colors, while a complete manicure set is found in grained leather.

Tailored Tweed Frock; Belt Is Only Trimming

For spring afternoon wear, Patricia Avery, popular screen star, advocates this tailored tweed frock, set off with a bright colored belt as the only trimming.

The Draped Turban

One of the interesting evening novelties is the tightly draped evening turban which harmonizes with the gown and wrap. Entire gold lame ensembles including gown, hat and wrap are being worn. Contrast is added by means of the fur used on the wrap.

An Attractive Blouse of Pussy Willow Crepe

This blouse of pussy willow crepe, embroidered with tinsel, is a popular model on the spring fashion card.

Bits of Gleaming Metal Embellish New Frocks

Quite a beguiling note in the present mode is the use of metal trimmings distinctly masculine in character. These appear on every type of day costume, from crepe afternoon frock to the sturdy cloth coat made for wind and weather.

Metal mesh, studs, nail heads and thin gold discs are employed in ingenious ways to give design and color to a plain background. Trimmings of the vigorous type are arresting in themselves and, in addition, afford a striking contrast to the prevailing feminine tendencies.

One distinguished form of metal embellishment is the nail head. Bits of gleaming metal in gold, silver or steel finish, with irregular hammered surfaces, or small round studs in shining silver finish, adorn some of the smartest afternoon frocks where they are used to outline bands of contrasting material, or to trim the edge of a long overblouse.

On cloth wraps larger nail heads in open, scattered designs are used to ornament the border and sleeves. Metal also appears on hats not in nail-head form, but worked into some interesting design or made into a narrow gold mesh band.

An ingenious use of nail head trimming is a feature of the afternoon frocks shown today. In contrast to last season's modes when nail heads first appeared used in irregular, scattered motifs on cloth street coats, the present fashions show this type of trimming used in horizontal bands, in vertical lines and to edge the scalloped contour of an inset band of contrasting fabric.

And in place of appearing on rough kasha or twill, these gleaming dots of metal are now used in connection with such distinctly feminine fabrics as faille, crepe Elizabeth and crepe roma.

Curiously enough, the effect is not at all incongruous. The metal blends amazingly well with the soft background and in several instances provides just the sharp note of contrast necessary to chic.

Ruffles, Tiers, Bolero in Fashion Limelight

Ruffles, tiers and the bolero are the outstanding feminizing influences which thus far have been offered by the Paris couture. Boleros are of many species. They may be the partial type, appearing under the arms of the U-shaped sections, or at the front and the back or at either side; they may be completely detached or they may be the conventional type. Tier treatments which appear with great frequency on smart skirts favor the slanting line. Carrying out this treatment of slanting tiers requires that they be detached on one side only. Ruffles make their presence felt in numerous manners, one of the significant methods being the application of a circular ruffle at the hemline of the skirt.

Colorings provide another note which adds to the gay girlishness of the new spring fashions. Blues and yellows are the outstanding ranges, with the former well ahead of the field. Various shades of blue, of course, have been confidently anticipated all winter as the leading spring shades, but the unexpected emphasis on yellow comes as pleasantly as it does unexpectedly.

Shawl for Evening Wear

A shawl or scarf is now indispensable with an evening costume and many new styles are shown. One is made of a square of metallic brocatelle with a fifteen-inch frame of plain georgete. Another is a figured lame bordered with wide metallic lace. Some interesting kinetic designs are shown, and some in various pretty flower patterns embroidered on crepe.

Charles Brady Regains Health

San Diego Motorman Found Difficulty Staying on Job Due to Ill Health Brought on by Severe Stomach Troubles. Marvelous Tanlac Restores Him.

"Irregular working hours and equally irregular meals," says Charles Brady, a respected San Diego resident living at 4628 Georgia Street, "robbed me of good health. Eating became a trial, for I suffered from indigestion and gas that bloated my stomach. My liver was so sluggish that I was deprived of normal strength and energy. I lost weight, too.

"After reading about Tanlac I decided to try it. Immediately I began to feel stronger. My appetite returned. By the end of six weeks I was feeling like an entirely different person and was eating and digesting my food better than in years. I got rid of the sluggish, fagged-out feeling, and my strength and energy came back with vim."

This amazing tonic, nature's own remedy made from roots, barks and herbs, usually builds up weak bodies, drives out causes of pain and anguish. Take Tanlac. Results are amazing! Ask your druggist for a bottle—today.

Garfield Tea

Was Your Grandmother's Remedy

For every stomach and intestinal ill. This good old-fashioned herb home remedy for constipation, stomach ills and other derangements of the system so prevalent these days is in even greater favor as a family medicine than in your grandmother's day.

Help Kidneys By Drinking More Water

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation.

Puts An End to Bunion Pains

No Need to Suffer Another Day Those Agonizing Torturing Pains.

There is one simple yet inexpensive way to reduce inflamed, swollen toe joints and get them down to normal and that is to apply Moone's Emerald Oil night and morning.

Ask your druggist or any first class druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not give you complete satisfaction you can have your money refunded.

Special note: People who want to reduce swollen or varicose veins should get a bottle of Emerald Oil at once. Applied night and morning as directed they will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

DO YOU SUFFER FROM **ASTHMA?**

Olive Tar has relieved hundreds. Its soothing pine odor relieves irritation. Use externally and internally. A wonderful relief for soreness and inflammation, colds, bronchitis, coughing. Pure, harmless.

HALL & RUCKEL, New York

WHAT CAUSES BOILS.

Boils and carbuncles are the result of improper diet or infection of the skin. It's sometimes hard to determine the exact cause but CARBOIL will give quick relief. No expensive operation is necessary as one application of CARBOIL promptly stops the pain and continued use draws out the core. Get a 50c box from your druggist. Your money back if you are not satisfied.

SPURLOCK-NEAL CO., NASHVILLE, TENN.

EYES HURT?

Don't ignore the danger signals of aching eyes, red lids, bloodshot eyeballs. Mitchell Eye Salve removes irritation, reduces inflammation, soothes pain.

HALL & RUCKEL
147 Waverly Pl., New York

In Hoosier Eden

Recently a North side family was passing the West Washington street bridge. One of the parents spoke of a huge stone placed at the end of the bridge to mark the spot where the house of the first Indianapolis settler stood.

On hearing the remark a daughter, age eight, asked:

"Mother, is that where Adam and Eve lived?"—Indianapolis News.

Chains Clean the Chimney

Chimneys, especially those in soft coal districts, require cleaning from time to time. This task can be made easier by using a bundle of automobile skid chains on the end of a rope for scraping the soot from the flues.—Popular Science Monthly.

No Cold

Fever headache or grippe

Colds break in a day for the millions who use Hill's. Headache and fever stop. La Grippe is checked. All in a way so reliable that druggists guarantee results. Colds are too important to treat in lesser ways.

RADIO

Why Loop Antenna Returns to Favor

Improvements in Receiver Design Aid in Making Plan Practical.

By L. M. CLEMENT
Chief Engineer, Fada Radio.

Perhaps the mystery of loop operation always will stir the interest of the lay person! That a small wooden frame wound with a comparatively few turns of wire can act as an antenna for a receiver and pick up without any other connection a certain station, either local or distant, is indeed marvelous.

It brings to mind the story of the New England farmer who witnessed his first demonstration of the electric light late in the Nineteenth century. He marveled long at the idea of light coming from a box connected by two wires to a small glass bulb. After deliberation, he admitted that it was wonderful, indeed, "what they thought up," but for the life of him could not understand how they made "the kerosene flow up the wires"!

Loop Returning.

A review of receiving set apparatus placed on the market within the last few months reveals the incorporation of several distinct and outstanding features which were not present a year ago.

Among the more obvious changes is the increasing use of a loop, or, as it is technically known, a coil antenna. The coil antenna either has supplemented or wholly displaced the outside aerial for method of "pick-up" with certain types of receiving sets.

Curiously, the use of the coil antenna dates back to the time of the first radio experiments. In fact, the first designs of transmitting and receiving apparatus called for a form of coil antenna. The lack of the modern means and practices of high amplification prevented successful experiments at that time except over extremely short distances.

Just before and during the war, with the advent of high amplification, the loop came into prominence, particularly because of its directional characteristics and its portability. Today we find navigation depending to some extent upon the advantages and use of the coil antenna in connection with directional compass work.

A few years ago the loop antenna as a means of "pick-up" was resurrected and used in radio receivers for broadcast reception.

At that time, when the introduction of radio broadcast reception in itself was considered such a phenomenon, the loop probably enjoyed its favor in large measure due to its "novelty" appeal, rather than the possible advantages it possessed in simplicity of operation or installation.

In the final analysis the receiver of that day was usually of the four or five-tube design and did not permit the degree of satisfactory loop operation which could be obtained with the regulation outside antenna. Since performance is the predominant factor in determining the worth of a radio receiver in the end, the loop gradually but steadily waned in public favor.

Loops in Modern Receivers.

Many recent improvements in receiver design have contributed to make the operation of a receiver on a loop antenna entirely practical, and this furnishes the impetus which is gradually but surely re-establishing the loop as a "pick-up" on the modern receiver.

Probably the most important development which has influenced the use of the loop in commercial practice once more, is the introduction of full and complete metallic shielding which permits the high radio-frequency and audio-frequency amplification necessary for its successful operation.

The coil antenna is very efficient as compared to the outside antenna and only a fraction of the voltage induced in the outside antenna is induced in the loop. To obtain the same volume from the speaker with this smaller inital pick-up, sufficient amplification to compensate therefor, must be obtained.

When loops first were in favor, the addition of more stages of radio-frequency amplification to provide the sensitivity necessary for loop operation could not be satisfactorily accomplished because of lack of the necessary knowledge. Since then, the employment of multi-stage tuned radio-frequency amplifiers of the shielded type made possible the use of the loop as a means of pick-up.

Even a casual observation of the styles in radio today brings to light the increasing use of the loop operated receiver, which employs only a small two or three-foot loop antenna and gives satisfactory operation in regard to the reception of distant stations.

Thus we find the pendulum of public choice again swinging back, and the loop operated receiver is seen everywhere today. In the higher-price apparatus, where use is made of seven or eight tubes, the loop is used almost entirely for operation as the amplification provided is sufficient for the reception of even the more distant stations.

Let us digress for a moment to explain loop operation. In short, the advancing radio wave is made up of two components, one electric and one magnetic. The magnetic field spreads out from the station in horizontal rings ever widening from the transmitter. An apt illustration is the "pebble in the pond" analogy. When the loop is pointed toward the source, the magnetic field will strike the loop at right angles, and a maximum of the magnetic field will be enclosed by the loop. This field is changing and, in similar fashion to the coil in a transformer, has a voltage set up in it. This voltage is then amplified by the receiver. When the loop is turned at right angles to the line between it and the transmitting station, none of the field cuts through the loop and therefore no voltage is developed. Without a voltage set up in the loop there is no effect upon the receiving set.

This easily explains not only the pick-up action but serves to illustrate its directional properties.

The directional effect of loop operation naturally helps in securing additional selectivity. Under the present crowded air conditions full benefit can be taken of this directional effect by turning the loop to exclude the undesired station, provided the desired station does not lie in the line between receiver and the undesired station.

In the large cities, where but limited space is available, outside antenna construction is often impossible, and where barriers of steel preclude the possibility of proper reception with the inside antenna the loop then comes decidedly to the fore.

A large factor in the growing preference of loop operated receivers is the ease of installation and possibility of portability. Many such loop sets have found their way into other places than the home.

Novel Feature.

Even in cases where loop operation has proved very successful, the "unsightliness" objection has been expressed by the critical set user.

Present-day practice has done much to overcome this objection. The loop is now mounted on a bracket which can be swung out of sight or cleverly worked into the cabinet itself. Or, if it is to be permanently exposed, it is on the par, from a furniture standpoint, with the set itself.

In conclusion, we can say that once more, loop operation is coming into favor due in large measure to the latest practices of engineering and design which have been constantly at work to provide better and better apparatus for public enjoyment.

Some Valuable Pointers on Soldering the Joints

Good solder joints are important to radio sets. The amateur set builder who has had no previous recourse to the use of soldering will sidetrack much unpleasant experience if he follows a few elementary requisites.

The parts which are to be soldered must be cleaned to brightness and a sufficient amount of good flux should then be applied. Examine the soldering copper to see that it is clean and that the tip is properly tinned, i. e., evenly coated with solder. Heat the copper adequately, but take care that it does not become brilliant, otherwise the tinning will burn off and a process of cleaning and retinning must be gone through before it is again serviceable. Using an electric soldering copper simplifies matters a great deal, as these maintain a fairly constant temperature.

Tin the parts which have been prepared and then place them in the desired position for joining. Put some solder on the tip of the copper and while firmly holding the parts together apply the copper to them. When finished, wipe with a cloth to remove residue of flux. A good joint appears smooth and inconspicuous and exerts a maximum of binding efficiency and electrical transfer.

Cheap Tubes Soon N. G. for Distance Reception

The best designed and constructed receiver is perfectly useless without the proper vacuum tube. Tubes can be bought for prices ranging from 50 cents to $6, but in general it can be said the prices indicate the relative values of the tubes in regard to life and performance.

The filaments in the cheap tubes are generally made of thin platinum wire which evaporates rapidly when heated to incandescence and soon loses its power of electron emission or burns out completely within a very short time. Further, the design is such that the tubes are very poor radio-frequency amplifiers or detectors, so that it is impossible to get distant stations or even local stations with the proper volume.

From the instant that the cheap tubes are first lighted, their sensitivity starts to drop off, and within a relatively few hours they are useless for distance reception. An honestly built tube employs tungsten wire for the filament and then this tungsten wire is impregnated with "thorium," which increases electron emission.

Tungsten is an extremely hard and refractory metal which can be held at incandescence for hundreds of hours with but little loss by evaporation.

ROSENBERG WILL TRY FOR FEATHER

Quits Bantamweight Title Because of Weight.

Charley (Phil) Rosenberg, who automatically vacated the bantamweight boxing throne because of inability to make the weight for his fight with Bushey Graham, plans to join the the chase for the featherweight championship.

"I have fully decided to abandon the bantamweight title and fight in the future as a featherweight," Rosenberg declared after he had scaled 122½, 4½ pounds over the bantamweight limit, for the match with Graham.

The featherweight title has been vacant for the same reason that forced Rosenberg out of bantam ranks. Louis (Kid) Kaplan of Meriden, Conn., voluntarily relinquished the 126-pound crown last July after holding it a year and a half. Candidates for it since then have narrowed down to Red Chapman of Boston, Benny Bass of Philadelphia and Honeyboy Finnegan of Boston.

Rosenberg now may join these three in an elimination tournament sanctioned by the New York state athletic commission, which previously set Kaplan up as champion by a similar contest.

Rosenberg won the bantamweight championship nearly two years ago, in March, 1925, from Eddie (Cannonball) Martin in a 15-round decision match. In July, 1925, he successfully defended it by knocking out Eddie Shea of Chicago.

Rosenberg began encountering trouble making 118 pounds over a year ago. He refused to accept Graham's challenge for a title match at that time and was suspended by the New York boxing solons. His reinstatement was effected only on Rosenberg's signing an agreement to vacate the title if he failed to make the weight.

Here's Way for Coaches to Keep Football Stars

Those football coaches who are about to lose prominent prospects for next year's varsity elevens should consult the stars as a means of saving them.

The voice of a prophetess in Washington, Pa., saved Washington and Jefferson its most promising freshman of the past season. "Don't transfer to another," said this prophetess, and her words kept Earl T. Wilson, fullback of the 1926 freshman outfit, for W. and J. next season.

Wilson, who lives at Sharon, Pa., had decided to transfer his allegiance from W. and J. to Miami university in Ohio.

The almost-sophomore happened to stop in a seance at a local theater to see if the prophetess—billed at said theater to be able to read the stars—could read the stars for him.

"You are thinking of going to another school," she told him. "Don't do it. You will be making a big mistake."

Somehow it impressed Wilson and he decided to stay. Perhaps because he may be possessed of gambling spirit and eager to learn whether the prophetess knew her stars or not.

Left-Handed Hurlers in American League Sparkle

According to the 1926 National league batting averages the first 50 batsmen represent 20 left-handed batters and four who bat from either side of the plate.

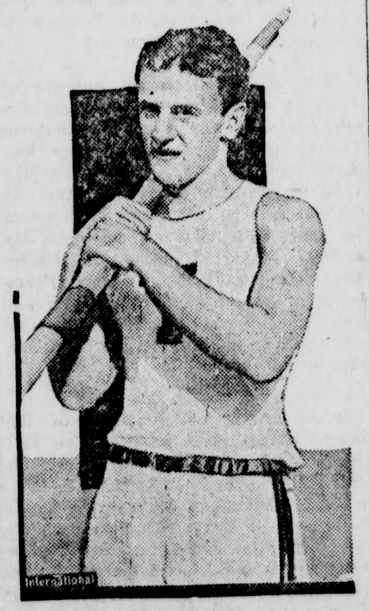
Among the first 50 batsmen in the American league there are 23 left-handed batsmen and three "turn-around" batters.

National league left-handed pitchers had as much edge as the American league pitchers and a bit more.

Portside pitchers are supposed to be more effective against left-handed batsmen than against right-handed.

The only conclusion one can draw is that the left-handed pitchers in the American league are a bit better than the portsiders in the National league. They certainly have to face as many tough batters, if not more.

New World's Mark



Sabin W. Carr, Yale vaulter, holder of all American indoor records, soared to new heights by establishing a new world's mark for indoor vaulting, in 13 feet, 9¼ inches, topping the record of Charlie Hoff of Norway by one inch.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

No Disfiguring Blemishes to Hide

If Cuticura Soap is used daily, assisted by Cuticura Ointment when necessary. They do much to prevent blackheads, pimples and other unsightly eruptions, and to promote permanent skin health.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: "Cuticura Laboratories Dept. 23, Malden, Mass.

Cuticura Shaving Stick 25c.

Aunt Is Uncle

"I want a package of Aunt Jerusha's rolled wheat."

"Here it is, madam."

"This isn't what I want. This is Uncle Josh's cereal food."

"Yes, ma'am. It's exactly the same thing. Uncle Josh is Aunt Jerusha's other name."

"Who is Aunt Jerusha, anyway?"

"Aunt Jerusha is a couple of old millionaire bachelors in Michigan!"—Detroit Free Press.

HEARING RESTORED

An invisible Ear Drum invented by A. O. Leonard, which is a Tiny Megaphone, fitting inside the ear out of sight, is restoring hearing and stopping Head Noises of thousands of people. Request for information to A. O. Leonard, Suite 646, 70 Fifth Ave., New York City, will be given prompt reply.—Adv.

Seemed Suspicious

A butcher, hearing a boy whistling outside his shop, said:

"What are you making all that noise for, you young scamp?"

"I've lost my dog," answered the boy.

"Well," the butcher asked, "do you thing I've got your dog?"

"I don't know, guv'nor," replied the boy, "but every time I whistle those sausages move."

Stop the Pain.

The hurt of a burn or a cut stops when Cole's Carbolisalve is applied. It heals quickly without scars. 30c and 60c by all druggists, or send 30c to The J. W. Cole Co., 127 S. Euclid Ave., Oak Park, Ill.—Advertisement.

A Slap

Gladys—I wish I could keep my good looks!

Marge—Well, the first thing I would suggest, dear, is to get some.

A torpid liver prevents proper food assimilation. Wright's Indian Vegetable Pills tone up the liver. They act gently but surely. 372 Pearl St., New York. Adv.

The march of the human mind is slow.—Burke.

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

Miss Gertrude Murphy motored with friends to San Jose last Sunday.

Charles Roddenberger, of Templeton avenue, is sporting a new Willys-Knight sedan.

Harold Purser, of San Jose, visited Mr. and Mrs. H. H. Smith and family over the week end.

Mrs. L. T. Cook, water office clerk, has moved from 121 Hillcrest Drive to Irvington street.

D. Donovan, of Templeton avenue, purchased a new Studebaker Big Six brougham from Bill Sweeney, local Studebaker agent, last Tuesday.

In a closely contested game, the Jefferson high 130-pound baseball team defeated the San Francisco Polytechnic high nine by a score of 9 to 7, last Wednesday.

Mr. Chandler, of Evergreen avenue, has just installed a beautiful new radio set.

Harry McKee and Warren Butman, of Evergreen avenue, went fishing at Mirimar last Sunday.

Miss Gertrude Murphy attended a party given last week by Miss M. Brennan of San Francisco.

Members of the La Fiesta Social Club are planning on giving a social on Thursday evening, April 7.

The program at the State Theatre this Saturday, March 26, includes "Mantrap," in which Ernest Torrence and Clara Bow have the leading roles, the Kiddie Revue and "Fire Fighters."

Rev. Charles H. Gatchell, pastor of Grace Presbyterian church, has been invited to fill the pulpit at the Brooklyn Presbyterian church next Sunday, and has consented to go for the morning service.

Mr. and Mrs. Clousky and family have moved back to 54 Irvington street. A short time ago they left for Mountain View, but have concluded that "Daly City is a good place to live."

Mr. and Mrs. Leonard McKee, former residents of Daly City, write that they are comfortable established in their newly purchased home in Seattle. Mr. McKee is the brother of Harry McKee of Evergreen avenue.

"The Magician," with Alice Terry taking the leading role, will be presented at the State Theatre on Monday and Tuesday, March 28 and 29. "The Magician" is considered one of the best pictures of the year, and you should see it.

The members of Company No. 3, Daly City Volunter Fire Department, will hold their regular whist at their fire house, West Lake avenue and Mission street, on Tuesday evening, March 29. Refreshments will be served and the usual good time is expected.

A committee from the drill team of El Carmelo Parlor No. 181, N. D. G. W., and from Niantic Parlor of San Francisco, met at the home of Miss Colista Dalton, on Niantic avenue, on St. Patrick's night. After the business meeting, refreshments were served by Miss Dalton.

Improvements begun some time ago by M. Vernengo at the Daly City Billiard Parlor are practically completed, and there is a noticeable difference in the appearance of the place. More room has been added, and a skylight installed. A new snooker table is now being enjoyed by the patrons.

Stanley Cerf, of 2311 Irving street, San Francisco, was arrested for speeding on March 17, and when brought before Judge Ellis C. Johnson had his license suspended for thirty days. Daly City officers are determined that speeding in this city shall be stopped, and all drivers are warned to drive in a safe and sane manner in Daly City.

On Thursday, April 14, Crocker Chapter, Order of DeMolay, will hold its first anniversary celebration. At that time the following officers, who were elected last Thursday, will be installed: Thomas Yates, Master Councillor; Ed. Blaylock, Senior Councillor; Earl Eldrup, Junior Councillor. Past Master Councillor Ed. Kingsland will be the installing officer. The Chapter was organized April 3, 1926.

Miss Colista Dalton of the La Fiesta Social Club is sporting a new Chevrolet sedan.

Marie Johnson, of 3241 San Jose avenue, is recovering from an attack of the measles.

Miss Ernie Klaum, of San Francisco, was a week end guest of Miss Tessie O'Connor at her home on Evergreen avenue.

The mission which is being held at St. Maximus church is largely attended, both at the morning and the evening services.

Last Sunday Mr. and Mrs. R. E. Wall were the guests of Mr. and Mrs. M. Marconi, of Templeton avenue, at a chicken ravioli dinner.

Mr. and Mrs. William Core, of 51 Willits street, are the proud parents of a baby boy, born last Friday. This is the fourth addition to the family, the other three being girls.

Peter Pavlos, of Peter's restaurant, underwent a minor operation yesterday. He is reported as getting along fine, and will soon be able to challenge all comers who think they can play golf.

The double feature program at the State Theatre next Sunday includes Adolph Menjou in "A Social Celebrity" and Leatrice Joy in "Hell's Highroad," also "House Without a Key." These bargain bills on Sunday are proving very popular.

Don't forget the dance and whist to be held by El Carmelo Parlor No. 181, N. D. G. W., at Masonic Hall, April 20. After the whist, which will start at 8:30 sharp, there will be dancing, and light refreshments will be served.

During the Lenten season, the drill team of El Carmelo Parlor No. 181, N. D. G. W., will drill every Thursday night at the Daly City Auditorium, instead of Friday nights. All the members are requested to be present at these meetings at 8 p. m. sharp.

Arthur Hume died Sunday at his home, 140 Miriam street, after a short illness. Funeral services were held Thursday morning in the mortuary chapel of W. C. Lasswell & Co, thence to St. Maximus church, where there was a requiem high mass. Interment was in Holy Cross cemetery.

Lawrence Vireno suffered a badly spiked ankle last Friday in the interclass track meet at San Mateo Junior College. While rounding the turn at the half way mark in the 200 yard event, a tangle occurred and he was spiked. Despite the injury, he continued for 100 yards, placing a good second. He also placed a strong fourth in the 100 yard dash. Both were main events of the day.

Mrs. Alvin Cobleigh celebrated her birthday with a family dinner last Sunday at her home on Peoria street. Those present were: Mrs. Turner, mother of Mrs. Cobleigh; Mrs. Cobleigh, mother of Mr. Cobleigh; Mr. and Mrs. Warren Healy and son Warren, Mr. and Mrs. George Gray and son Walter (Mrs. Healy and Mrs. Gray are sisters of Mrs. Cobleigh); Alvin and Mary Cobleigh, son and daughter of Mr. and Mrs. Cobleigh.

A birthday party was given in honor of Miss Patricia Cochrane, at the home of her grandmother, Mrs. M. Murphy. The table was decorated in green, in honor of St. Patrick. Miss Particia received many beautiful gifts from her little chums. Among those present were: Leonard Stuehler, Jack Giessler, Pauline Bleasdale, Lucille Paulson, Gene Green, Viola Poulas, Corinne Pavio, Flora Quinn, Ernestine Cuneo, Dorothy Eason, Hazel Eason, Buster Eldrup and Patricia Cochrane.

Recently Mrs. N. N. Dexter, of 46 Vendome avenue, celebrated her 96th anniversary, when she was the recipient of numerous remembrances, among them being a box of beautiful flowers sent her by a niece who lives in Boston, the flowers coming from the Art Floral Company, San Francisco. With the flowers—daffodils, tulips, sweet peas, pink roses and ferns—came a card from Mrs. Dexter's niece, Sylvia Durfee Whitemore, containing birthday greetings.

Mrs. Lorraine Wall entertained Tuesday evening at a delightful dinner party at her home on Bellevue avenue, given in honor of her husband's birthday. Those enjoying Mrs. Wall's hospitality were: Mrs. H. O'Connor, Mr. and Mrs. H. Lorentz, Mr. and Mrs. Edward Sullivan, Mr. and Mrs. Robert Peterson, Mrs. Fuche, Misses Bessie Hulten, Marge O'Connor and Messrs. Nick Schopelein and Del Sherck. After dinner the evening was spent in dancing. Later a dainty supper was served.

While acting as chairman of the entertainment committee of the Exchange Club of South San Francisco last Wednesday, District Superintendent Kleemeyer invited Prof. W. J. Savage, of Daly City, to speak on the elementary schools of San Mateo county. A good attendance of the Exchange members were enthralled by Mr. Savage's talk on some of his experiences in our schools from 1874 up until now. District Superintendent Kleemeyer is the brother of Mr. H. Kleemeyer, auto mechanics teacher at Jefferson Union high school.

LOCAL EAGLES PUT ON SUCCESSFUL SMOKER

The smoker arranged by the booster committee of Colma-Vista Grande Aerie No. 1848, Fraternal Order of Eagles, held on Thursday evening, March 17, was a grand success, the affair being celebrated by over 300 Eagles, coming from all sections of the peninsula and East bay districts, all of whom enjoyed every minute of the program.

There were many novelties to bring out the real St. Patrick spirit. Irish songs and music were plentiful and added to the success of the evening.

The program was in charge of Arthur Bodien, a twenty year veteran Eagle and past president, and O. A. Schramm, president of the Colma-Vista Grande Aerie, who both made sure that everyone present was enjoying themselves. There was not a minute wasted without an attraction of some kind. Through the courtesy and co-operation of Arthur Garett, president of San Francisco Aerie No. 5, the success of the evening was made possible. With Mr. Garett, the Sons of Omar, an organization of good-fellowship Eagles, journeyed to Daly City, bringing with them the Omar band and many talented members of their tribe.

Among the talented members that were present and offered selections were Dr. Prince, popular dentist of the Excelsior district, H. Sundermann, Daly City trustee, and many others.

This fete started the opening of the Eagles' membership drive. The membership drive will be concluded May 15, with a big class initiation in Eagles' Hall, Daly City, which it is expected will be one of the biggest in the history of the organization.

HELP TO PREVENT FIRE

It has come to the notice of the Fire Commission that a great number of people who have fireplaces build their fires right on the hearth (right on the bricks or cement.) This is a very dangerous thing to do.

A fire built on the hearth has a tendency to heat the bricks or concrete through, and although there may be an iron plate undeneath, there is danger of causing the floor beams to become charred, thereby causing a fire that may smoulder for hours before breaking out in flames.

By all means use a grate or fire basket in your fireplace. If you have neither, and do not feel like purchasing one, use some bricks or stone with pieces of flat iron or a piece of heavy iron screen. By so doing, you will have an air space between your fire and hearth which will give you a better fire, and also avoid the danger of a fire from an overheated hearth.

Do not go out, or to bed, and leave a fire in the fireplace, unless it is protected by a screen. A sudden gust of wind down the chimney is liable to shoot sparks on live coals on the floor or carpet.

Fire prevention is greater than fire fighters, and although you may be insured, money will not always repay you for what you may lose in a fire.

G. R. AUGUSTIEN,
Chairman Board of Fire Commissioners.

DALY CITY M. E. CHURCH

Rev. Arthur Jones, Minister

Sunday Next, March 27

10 a. m.—Sunday school.
7:15 p. m.—Epworth League.
8 p. m.—Vesper service. Series 5 of Pre-Easter sermons, "Parable of the Leaven."

Look out for our special week of Easter services.

The drill team of El Carmelo Parlor No. 181, N. D. G. W., and the drum corps of Niantic Parlor, San Francisco, are planning on giving joint dance at Native Sons Hall, at which place exhibition drills will be displayed by both teams. Both teams are very popular in our community and in San Francisco, so a huge crowd is expected to attend. Watch this paper for news of this affair.

Thursday, March 31, the members of St. Maximus Girls' Club will hold a meeting at their club rooms adjoining the church, after which refreshments will be served by the committee in charge of Mrs. Trier. Miss Marge O'Connor, president of the club, will preside. All young ladies in the parish will be welcome to come to this meeting.

Last Saturday afternoon Mrs. W. Fricke gave a delightful birthday party at her home on Crocker avenue, in honor of her son Harold's fourth birthday, a dozen little tots and their mothers being present. They had a lovely time in playing a number of kiddies' games, and all enjoyed the dainty luncheon which the hostess served.

In an interclass baseball game Thursday afternoon, the Sophomores of Jefferson Union high school held the Freshmen to a tie after seven innings of good baseball. The other two innings were not played, on account of rain.

With the decline of galoshes, the term flapper becomes less expressive.

WANTED—By a couple, small apartment or housekeeping rooms, in Colma or Daly City. Phone Chas. Sturn, Fillmore 1564.

FOR SALE—Leather covered davenport and one sanitary spring couch; both in good condition. Telephone Randolph 2149.

FOR SALE—Ford steering wheel, $1; two wheels, tires and tubes, $3; rods and three coils. Apply 6843 Mission street. Ask for Mr. Baker.

FOR SALE—Strictly modern five-room bungalow; garage for two machines. Bargain for $6,000; $500 down. Call on T. Sheehan, 62 Templeton avenue. Phone Delaware 2637.

FOR RENT IN COLMA—Furnished house, five rooms and bath. J. T. Casey & Son, Colma. Rand. 1230.

CURTAINS, DRAPERIES, Bed Sets, Table Runners and Pillows made at reasonable prices. Estimates free. Call the Queen Drapery Shop, 79 Vendome avenue, Daly City. Mrs. Lillie Gregory. Phone Randolph 1017.
